PUBLIC HEALTH.

Mymensingh. *No. 2025P.H.—The 5th November 1925.*—In exercise of the powers conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council makes the following rules subject to which the Commissioners of the Mymensingh Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only :—

Rules for the grant to private premises of house-connections for domestic purposes in the Mymensingh Municipality.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions :—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee Rs. 200 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below, each holding must have a separate connection to the municipal main supply-pipe, and extensions from the communication-pipe of one holding to another holding shall not be permitted :

Provided that with the consent of the Commissioners in meeting, connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage, and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding :

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required, must pay the entire cost of the connection, including the supply and fixing of

the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings :—

(*a*) a brass or gun-metal ferrule inserted in the main supply-pipe ;
(*b*) a galvanized iron communication-pipe from the ferrule to the meter ;
(*c*) a stop-cock and its surface-box ;
(*d*) a meter ;
(*e*) service-pipes from the stop-cock to the taps ; and
(*f*) taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows :—

	Annual valuation of holding.	Sizes of ferrule.	Diameter of communication-pipe	Number of taps.
	Rs. Rs.	Inch.	Inch.	
Under	200	½	½	1

„	1,500 to 1,999	1	1	7
„	2,000 and over—an extra tap for every additional Rs. 1,000.			

11. (1) On every communication-pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

15. (1) Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to a supply of—

(*a*) 3,000 gallons of water per quarter for each rupee, and
(*b*) a further proportionate number of gallons per quarter for every additional fraction of a rupee,

paid by him quarterly as water-rate in respect of such holding.

(2) For all water in excess of the amount allowed under sub-rule (1) such owner or occupier shall be charged quarterly as follows :—

(*d*) For any excess quantity of water exceeding twice the amount of the allowance prescribed in sub-rule (1)	1	4

16. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely :—

(*a*) if the holding is unoccupied ;

(*b*) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorised under this Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection ;

(*c*) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman, or wilfully or negligently injures or damages it ;

(*d*) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood ;

(*e*) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same ;

(*f*) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes or any other works in connection with the water-supply not authorized by these rules ;

(*g*) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair :

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (*d*) an officer authorized by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down". Every tap shall be at least 3 feet above the surface of the ground beneath.

18. No cistern, tank or reservoir of any description which is intended to be supplied with water from the municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank or reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

19 No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

RESOLUTION.

The 24th October 1925.

No. 102-S.—The Committee on Life Saving Appliances which reported in 1914 considered that the existing rules regulating the carriage of such appliances on Native Passenger Ships were out-of-date, and recommended the adoption of a scale more in accordance with modern requirements. Local Chambers of Commerce which were consulted at the time were generally prepared to acquiesce in the Committee's recommendations, but owing to war conditions and to the general disorganization of shipping which was brought about by those conditions, the Government of India decided to defer the question of revising the scales. They now publish their provisional conclusions in the draft rules appended to the notification attached to this Resolution.

2. These draft rules follow, for the most part, the recommendations of the above Committee. The scales in the case of foreign-going ships of the first class, and also in respect of ships in the other classes launched after the 1st January 1927, have, however, been increased. The scales prescribed for foreign-going ships of the first class are based on the scales which have been prescribed for foreign-going passenger steamers under the Merchant Shipping (Life Saving Appliances) Rules, 1924. Such ships calling at ports in other British Possessions where the United Kingdom rules are in force can be compelled by the authorities there to comply with the requirements in those Rules. It is clearly desirable that rules in these particulars should be as uniform as possible.

3. Any suggestions or criticisms which any person or body may wish to make in respect of the draft rules should be submitted to the local Government concerned in time to permit them to forward the same to the Government of India by the 15th day of January 1926.

ORDER.—Ordered that this Resolution be published in the *Gazette of India*.

Ordered also that a copy of this Resolution be forwarded to the Governments of Bombay, Bengal, Madras and Burma, with the request that the local Government, after consulting the commercial and other interests affected, will communicate to the Government of India by the 15th day of January 1926, any alterations they consider necessary. Also that a copy be forwarded to the High Commissioner for India, the Indian Trade Commissioner in London and the Director-General of Commercial Intelligence.

NOTIFICATION.

The 24th October 1925.

No. 102S.—The following draft of certain rules which it is proposed to make in exercise of the powers conferred by sub-section (*1*) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), is published, as required by sub-section (*4*) of the said section, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 15th day of January 1926. Any objection or suggestion which may be received from any person in respect to the draft before the said date will be considered by the Governor-General in Council :—

Draft Rules.

1. (1) These Rules may be called the Boats and Life Saving Appliances (Native Passenger Ships) Rules, 1926.

(2) They shall come into force on the 1st day of January 1927, from which date rule IX of the Rules published with the notification of the Government of India in the Department of Finance and Commerce, No. 1354, dated the 14th March 1889, shall cease to have effect.

2. In these rules, unless there is anything repugnant in the subject or context,—

Definitions. (1) "Approved" means approved by the Local Government.

(2) "Boat-deck" means any deck on which boats are carried and of which the space required for the stowage of boats under rule 38 occupies half or more of the length or breadth of such deck.

(3) "Daylight" means the period from one hour before sunrise until one hour after sunset.

(4) "Length" in connection with a ship means the registered length of the ship.

Classification of ships 3. For the purpose of these rules ships shall be classified as follows :—

(1) Foreign-going ships of the first class, in which are included steamships voyaging to or from ports in India or Burma from or to any ports outside India or Burma ; provided that no ship shall fall within this class by reason only of the fact that it voyages to or from ports in India or Burma from or to ports in the Federated Malay States or the Straits Settlements or Ceylon only.

(2) Foreign-going ships of the second class, in which are included steamships voyaging to or from ports in India or Burma from or to ports on the Red Sea or Persian Gulf only.

(3) Home-trade ships of the first class, in which are included steamships voyaging between ports in India or Burma or to or from ports in India or Burma from or to ports in the Federated Malay States or the Straits Settlements or Ceylon, which do not ordinarily keep within twenty miles of the coast-line.

(4) Home-trade ships of the second class, in which are included steamships voyaging between ports in India or Burma or to or from ports in India or Burma from or to ports in the Federated Malay States or the Straits Settlements or Ceylon, which ordinarily keep within twenty miles of the coast-line.

(5) Home-trade ships of the third class, in which are included steamships voyaging between ports in India or Burma or to or from ports in India or Burma from or to ports in Ceylon only, which ordinarily keep within five miles of the coast-line.

(6) Home-trade ships of the fourth class, in which are included sailing ships.

A.—*Foreign-going ships of the first class.*

Davits.

4. A ship of this class shall, subject to the provisions of rule 46 (1), be provided, in accordance with its length, with the number of sets of davits specified in column A of the table in Appendix I :

Provided that no ship shall be required to have a number of sets of davits greater than the number of boats required to accommodate the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater, and provided further that the local Government may, where it appears to them necessary, having regard to the height at which the boats are carried above the centre of the load-line disc, and to the other circumstances of the case, require a ship of this class to carry in lieu of, or in addition to, davits, some other approved form of launching appliances, or such arrangements for launching boats as may be, in their opinion, effective.

Life-boats.

5. (1) Each set of davits shall have a life-boat of class I attached to it, and of these life-boats at least the minimum number specified in column B of the table in Appendix I shall be open boats.

(2) Any additional life-boats which may be required to make up the total life-boat accommodation required by rule 7, may be boats of class I or class II.

Buoyant apparatus.

6. A ship of this class shall carry, in addition to the life-boats carried under rule 5, approved buoyant apparatus conforming to the conditions detailed in rule 37, sufficient to support twenty-five per cent. of the total number of persons which is carried or which the ship is certified to carry, whichever number is the greater.

Additional life-boats.

7. (1) Where the life-boats carried under rule 5 (1) do not furnish sufficient accommodation for the total number of persons carried or which the ship is certified to carry, whichever number is the greater, then arrangements shall be made to the satisfaction of the local Government to carry such additional life-boats as are required to make up the deficiency in such manner that they can be stowed without in any way impeding the prompt handling of the life-boats carried under rule 5 (1), the buoyant apparatus carried under rule 6, or the marshalling of the persons on board at the launching stations or their embarkation. So far as practicable without creating such impediment, these additional life-boats shall be distributed as follows :—

(*a*) One additional life-boat under each set of davits.

(*b*) Other additional life-boats, stowed on the deck, or bridge, or poop, so as to be available as far as practicable for use on either side of the ship, and so secured that they will have the best chance of floating free of the ship if there is no time to launch them.

Carriage of additional buoyant apparatus in lieu of life-boats in certain cases.

(2) Where the local Government are satisfied that in a ship of this class launched before 1st January 1927, it is not possible to carry, in the manner provided in rule 5 (1) and section (1) of this rule (7), life-boats, in such numbers and capacity as would be sufficient to accommodate the total number of persons carried or which the ship is certified to carry, whichever number is the greater, they may allow additional approved buoyant apparatus to be carried in lieu of life-boats sufficient for those persons for whom accommodation is not provided in life-boats. Provided that no buoyant apparatus shall be allowed on a ship of this class in lieu of a life-boat required by these rules unless the total cubic capacity of the life-boats is at least equal to the greater of the two following amounts :—

(*a*) Seventy-five per cent. of the total capacity required to accommodate all the persons carried.

(*b*) The minimum capacity required by column C of the table in Appendix I.

Exemptions in cases of specified voyage.

(4) The master or owner of a ship of this class claiming to carry on any voyage fewer life-boats or in the case of a ship coming under the provisions of rule 7 (2) fewer life-boats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, must declare before the Port

Officer, before the time of clearance, that the life-boats or the life-boats and approved buoyant apparatus, as the case may be, actually carried will be sufficient to accommodate all persons who will be carried at any time during the voyage to foreign ports and the voyage back to a port in British India, and that, in addition, approved buoyant apparatus will be carried sufficient for twenty-five per cent. of all such persons.

In the case of a ship coming under the provisions of rule 7 (2) and claiming to carry fewer life-boats and approved buoyant apparatus than will provide accommodation for all the persons for which the ship is certified, a further declaration must be made by the master or owner that the total cubic capacity of the life-boats actually carried is not less than is required by rule 7 (2), provided that no greater number of life-boats need be carried than is sufficient to accommodate all the persons carried.

Fitting of life-boats with wireless telegraphy installation and carriage of motor boats.

8. (1) Where the number of life-boats is more than ten, one of them shall be fitted with an approved wireless telegraphy installation. Where the number of life-boats is more than fifteen, one shall be a motor boat fitted with an approved wireless telegraphy installation complying with the provisions of rule 29 and where the number is more than twenty, two of the life-boats shall be motor boats so fitted. All such motor boats shall be fitted with searchlights.

(2) The local Government may, at their discretion, upon the application of an owner, allow a greater number of motor life-boats to be carried if they are satisfied that the efficiency of the life-saving equipment will not thereby be diminished.

Life-buoys.

9. If the ship is under 400 feet in length, at least twelve approved life-buoys shall be carried; if 400 feet or over, but under 600 feet, at least eighteen approved life-buoys shall be carried; if 600 feet or over, but under 800 feet, at least twenty-four approved life-buoys shall be carried; and if 800 feet or over, at least thirty approved life-buoys shall be carried.

Life-jackets.

10. One approved life-jacket shall be carried for each person on board.

B.—*Foreign-going ships of the second class.*

Davits.

11. (1) A ship of this class shall, subject to the provisions of rule 46 (1), be provided in accordance with its length, with the number of sets of davits specified in column A of the Table in Appendix I:

Provided that the local Government may, where it appears to them necessary, having regard to the height at which the boats are carried above the centre of the load-line disc, and to the other circumstances of the case, require a ship of this class to carry in lieu of, or in addition to, davits, some other approved form of launching appliances, or such arrangements for launching boats as may be, in their opinion, effective.

Life-boats.

(2) (*a*) Ships of this class launched before the 1st January 1927, shall carry life-boats, of which at least one shall be a motor boat, in such number and of such aggregate capacity as shall be sufficient to accommodate fifty per cent. and in the case of ships launched on or after the 1st January 1927, seventy-five per cent. of the total number of persons which is carried or which the ship is certified to carry, whichever number is the greater.

(*b*) Each set of davits shall have a life-boat of class I attached to it, and of these life-boats at least the minimum number specified in column B of the table in Appendix I shall be open boats. The minimum aggregate cubic capacity of the life-boats to be attached to the davits shall be in accordance with the scale specified in column D of the table in Appendix I.

(*c*) Any additional life-boats which may be required to make up the total life-boat accommodation required by sub-section (*2*) (*a*) of this rule, may be boats of class I or class II.

Buoyant apparatus.

12. If the life-boats carried do not provide sufficient accommodation for the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater, approved buoyant apparatus shall be carried sufficient for those persons for whom accommodation is not provided in life-boats.

Exemption in case of specified voyages

13. Notwithstanding anything contained in rules 11 (*2*) (*a*) and 12 the master or owner of a ship of this class may carry on any voyage fewer life-boats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, if he declares before the Port Officer at the time of clearance that the life-boats and approved buoyant apparatus actually carried will be sufficient to accommodate all persons who will be carried at any time during the voyage to the Red Sea or the Persian Gulf, as the case may be, and also during the voyage back to British India.

Life-buoys and life-jackets.

14. The provisions for the carrying of life-buoys and life-jackets on ships of this class shall be the same as those prescribed in rules 9 and 10 for foreign-going ships of the first class.

C.—*Home-trade ships of the first class.*

15. (1) A ship of this class shall, subject to the provisions of rule 46 (*1*), be provided, in accordance with its length, with the number of sets of davits specified in column A of the table in Appendix I.

(2) (*a*) Ships of this class launched before the 1st January 1927 shall carry life-boats, of which at least one shall be a motor boat, in such number and of such aggregate capacity as shall be sufficient to accommodate twenty-five per cent., and in the case of ships launched on or after the 1st January 1927 forty per cent., of the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater.

Life-boats.

(*b*) Each set of davits shall have a life-boat attached to it, and of these life-boats at least the minimum number specified in column B of the table in Appendix I shall be open boats. The minimum aggregate cubic capacity of the life-boats to be attached to the davits shall be in accordance with the scale specified in column D of the table in Appendix I.

16. If the life-boats carried do not provide sufficient accommodation, on ships launched before the 1st January 1927, for fifty per cent., and on ships launched on or after the 1st January 1927, for eighty per cent., of the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater, approved buoyant apparatus shall be carried so that they, together with the life-boats, shall provide sufficient accommodation for those numbers.

Buoyant apparatus.

17. A ship of this class shall carry at least ten approved life-buoys together with an approved life jacket for each person on board.

Life-boys and life-jackets.

D.—*Home-trade ships of the second class.*

18. (*1*) A ship of the class shall, subject to the provisions of rule 46 (1), be provided, in accordance with its length, with the number of sets of davits specified in column A of the table in Appendix I :

G.—*General.*

Power to accept alternatives. 27. The local Government shall have power, in general or in any particular case, to accept any boat, buoyant apparatus, other life-saving appliance or arrangement, in lieu of a life-saving appliance or arrangement required by these rules, subject to such conditions as they may impose, if they are satisfied that under those conditions it will be as effective as the appliance or arrangement required by these rules :

Provided that in the case of a foreign-going passenger steamer launched on or after 1st January 1927, no life-saving appliance shall be accepted in lieu of a life-boat required by these rules, except some other approved type of life-boat.

Classification of life-boats. 28. For the purposes of these rules boats are arranged in the following classes :—

CLASS I.

A.—*Open life-boats with internal buoyancy only.*

The buoyancy of a wooden boat of this type shall be provided by water-tight air-cases the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the air-tight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—*Open life-boats with internal and external buoyancy.*

The internal buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousands of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the air-tight compartments, so as to give it buoyancy equal to that of the wooden boat.

C.—*Pontoon life-boats having a well deck and fixed water-tight bulwarks.*

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area. The height of the well deck above the water-line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

CLASS II.

A.—*Open life-boats having the upper part of the side collapsible.*

A boat of this type shall be fitted both with water-tight air-cases and with external buoyancy, the volume of which, for each person which the boat is able to accommodate, shall be at least equal to the following amounts :—

	Cubic feet.
Air cases	1·5
External buoyancy (if of cork)	0·2

The minimum freeboard of boats of this type is fixed in relation to their length ; it shall be measured vertically to the top of the solid hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts :—

Length of the boat in feet.	Minimum freeboard in inches.
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—*Pontoon life-boats having a well deck and collapsible bulwarks.*

All the conditions laid down for boats of class IC shall be applied to boats of this type, which differ from those of class IC only in regard to the bulwarks.

C.—*Pontoon life-boats having a flush deck and collapsible bulwarks.*

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable without correction to boats having a mean sheer equal to three per cent. of their length :—

Depth of boat in inches.	Minimum freeboard in inches.
12	2¾
18	3¾
24	5⅛
30	6½

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference between the standard sheer and the actual mean sheer measured at the stem and stern post ; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

CLASS III.

Open boats which have not the buoyancy required for life-boats of class I.

29. (1) A motor boat carried as part of the statutory life-saving appliances of a Native Passenger Ship, shall comply with the following conditions — Motor boats.

(*a*) It shall comply with the requirements for a life-boat of class 1, and proper appliances shall be provided for putting it into the water speedily.

(*b*) It shall be adequately provided with fuel, and kept so as to be at all times ready for use.

(2) A motor boat carried in compliance with rule 8 (*l*), shall in addition comply with the following conditions :—

(*a*) It shall be fitted with a searchlight or searchlights of a pattern approved by the local Government.

(*b*) It shall be fitted with an approved wireless telegraphy installation.

(3) In fixing the volume of the internal buoyancy and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and its accessories, the searchlight and the wireless telegraphy installation and the weight of the additional persons which the boat could accommodate if the motor and its accessories, the searchlight and the wireless telegraphy installation, were removed.

(4) Notwithstanding anything contained in the preceding sub-sections of this rule 29, a life-boat fitted with the Fleming gear shall be accepted in lieu of a motor boat, provided that it otherwise complies with the requirements specified in the said sub-sections.

30. (1) All boats shall be properly constructed, and shall be of such form and proportions that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the local Government. Construction of life-boats.

(2) The structural strength of the boats shall be to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board :

Provided that this requirement shall not apply to any ship other than a foreign-going ship of the first or second class, where the height of the boat deck above the water-line at the vessel's lightest seagoing draught does not exceed 15 feet.

(3) In all open boats, all thwart and side seats shall be fitted as low in the boat as practicable, and shall provide seating accommodation for all persons the boat is deemed fit to carry, and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them. Seating accommodation.

(4) Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ounces to the superficial foot, or of other durable material, and in open boats of class I may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material; the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air, is prohibited.

Buoyancy.

(5) Open life-boats of class I shall have a mean sheer at least equal to four per cent. of their length.

Sheer.

(6) Pontoon life-boats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into water-tight compartments with means of access to each compartment and shall be provided with at least two bilge pumps.

Pontoon life-boats

(7) All pontoon life-boats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the local Government for each type of boat by a special test.

For the purpose of this test—

(*a*) The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment;

(*b*) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class	IC	...	...	... 60 seconds.
„	IIB	...	...	... 60 „
„	IIC	...	...	... 20 „

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a life-boat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

(10) All boats shall be permanently marked to the satisfaction of the local Government in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

Marking of life-boats.

31. (1) The number of persons which a life-boat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by rules 32 and 33), by the standard unit of capacity, or unit of surface, defined below.

Number of persons.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be ten times the number of persons which the boat is authorised to carry.

(3) The standard units of capacity and surface are as follows:—

Units of capacity.				Cubic feet.
Class IA	...	...	...	10
Class IB	...	...	...	9
Class III	...	...	...	10

Units of surface.				Square feet.
Class IIA Class IIC	...	...	...	3½
Class IC Class IIB	...	...	...	3½

(4) The local Governments may accept a smaller divisor for pontoon boats of class IC and class IIB, if they are satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor, provided always that the divisor adopted in place of 3½ shall never be less than 3,

(5) The number of persons obtained by the above rules shall be reduced—

(*i*) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(*ii*) If, in the case of boats other than open boats of class I, the freeboard when the boat is fully loaded is less than the freeboard required by these rules.

Test afloat.

(6) If the Government Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested afloat with the intended number of persons on board.

(7) The local Government may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

Children.

(8) Two children under the age of twelve years may be carried in place of one adult person.

Cubic capacity of open boats of class I.

32. (1) In the case of an open boat of class I the cubic capacity shall be determined by the following formula :—

$$\text{Capacity} = \frac{l}{12}(4A + 2B + 4C)$$

l denotes the *length* of the boat in feet from inside of the planking or plating at the stem to the corresponding point at the stern post; in the case of a boat with a square stern the length is measured to the inside of the transom.

A, B, C denote respectively the *areas of the cross-sections at the quarter* length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross sections :—

$$\text{Area} = \frac{h}{12}(a + 4b + 2c + 4d + e)$$

h denotes the *depth* measured in feet inside the planking or plating from the keel to the level of the gunwale, or, in certain cases, to a lower level, as determined hereafter.

a, b, c, d, e denote the horizontal *breadths* of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceed 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-section A or C shall be deemed to be the depth amidships *plus* 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section B shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections A and C shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet the number of persons given by the application of these rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board, all wearing life-jackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 0·6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner :—

Length : From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

Breadth : From the outside of the planking at the point where the breadth of the boat is greatest.

Depth : Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

(7) The cubic capacity of a motor-boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the wireless telegraphy installation, the searchlight, the motor and its accessories.

Cubic capacity of motor boats.

33. In the case of boats of these types the surface in square feet shall be determined by the following formula :—

Deck area and capacity of pontoon boats and of open boats of class II.

$$\text{Area} = \frac{l}{12}(2a + 1{\cdot}5b + 4c + 1{\cdot}5d + 2e)$$

l denotes the *length* in feet from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

a, b, c, d, e denote the *horizontal breadths* in feet outside the planking at the points obtained by dividing l into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (a and e being the breadths at the extreme subdivisions, c at the middle point of the length, and b and d at the intermediate points).

34. No boat carried in compliance with these rules shall have a capacity of less than 125 cubic feet.

Size of boats.

35. In the tests prescribed by these rules for determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a life-jacket.

Weight of persons

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 135 lbs. for each adult person that the pontoon boat is authorised to carry.

36. (1) The davits shall be of approved form and shall be suitably placed to the satisfaction of the local Government. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.

Appliances for lowering boats

(2) The davits, falls, blocks and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees; provided that this requirement shall not apply to any ship other than a foreign-going ship of the first or second class, where the height of the boat deck above the water line at the vessel's lightest sea-going draught does not exceed 15 feet.

(3) In the case of ships launched on or after the 1st January 1927, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible, or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled; provided that this requirement shall not apply to any ship other than a foreign-going ship of the first or second class, where the height of the boat deck above the water line at the vessel's lightest sea-going draught does not exceed 15 feet.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls; the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangement as shall be satisfactory to the local Government.

(6) Where more boats than one are served by the same set of davits, arrangements shall be made to prevent the falls fouling when they are recovered, and, where more than two boats are served by the same set of davits, there shall be provided an approved appliance for lowering the boats in turn and rapidly.

(7) The local Government may accept in lieu of davits or sets of devits any other appliance, appliances, or arrangements, which appear to them at least as effective as davits for placing the boats in the water.

37. Approved buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use,

Buoyant apparatus.

Such approved buoyant apparatus shall comply with the following conditions :—

(1) It shall be of approved material and construction.
(2) It shall be reversible.
(3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, can be thrown from the vessel's deck on which it is stowed.
(4) The air cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.
(5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

Stowage of boats, rafts, etc.

38. (1) All boats attached to davits and all boats stowed under boats attached to davits shall be stowed in such a way that—

(*a*) They can be launched in the shortest possible time ;
(*b*) They will not impede in any way the prompt handling of any other of the life-boats attached to davits or stowed under boats attached to davits or the buoyant apparatus carried under rule 6, or the marshalling of the persons on board at the launching stations, or their embarkation ;
(*c*) Even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them ;
(*d*) Except as hereinafter provided, they shall be stowed as not to require lifting before being launched.

(2) With regard to the stowage of other additional life-boats and buoyant apparatus the following provisions shall apply :—

(*a*) They must not impede in any way the prompt handling of the life-boats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the marshalling of the persons on board at the launching stations or their embarkation ;
(*b*) The life-boats may be stowed one above the other, or they may, subject to such conditions as the local Government may impose, be fitted one within another, but where boats so fitted require lifting before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances ;
(*c*) The life-boats may be stowed in rows across a deck, bridge or poop ;
(*d*) As large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means ;
(*e*) Means shall be provided to the satisfaction of the local Government for lowering the life-boats into the water in the shortest possible time.

(3) Where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All buoyant apparatus shall be so stowed as to be readily available in case of emergency.

Equipment for boats and buoyant apparatus.

39. (1) Every boat which is carried by any ship shall be equipped as follows :—

(*a*) With the full single banked complement of oars and two spare oars, and a steering oar.
(*b*) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.
(*c*) With a sea anchor, a bailer, a galvanised iron bucket, a rudder and a tiller, or yoke and yoke lines, a painter of sufficient length, and a boat-hook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.
(*d*) With a vessel capable of holding one quart for each person that the boat is deemed fit to carry. This vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.
(*e*) With two hatchets, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.
(*f*) With a line securely becketted round the outside of the boat.
(*g*) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours ; or with some other lantern or light at least as effective approved by the local Government.

(2) In addition to the equipment prescribed above, the boats in foreign-going ships shall be equipped as provided in paragraphs (*a*) to (*f*), inclusive, of this sub-section of this rule. The boats in Home-trade ships shall be provided with the additional equipment specified in paragraphs (*b*), (*d*) and (*e*) of this sub-section of this rule.

(*a*) With a mast or masts, and with at least one good sail and proper gear for each ; but this does not apply to an approved motor boat.

(*b*) With an efficient compass.

(*c*) With an air-tight case containing two pounds of biscuits for each person for whom the boat is approved.

(*d*) With one gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.

(*e*) With one dozen self-igniting red lights in a water-tight tin, and a box of suitable matches in a water-tight tin.

(*f*) With 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a foreign-going ship shall be equipped as follows :—

(*a*) With two paddles and one boathook or two paddles and boathooks combined attached to the buoyant apparatus by lanyards.

(*b*) A painter of sufficient length.

(*c*) A line securely becketted round the outside of the apparatus.

(*d*) A self-igniting light and two signal flares of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length :

Provided that on buoyant apparatus, designed to support less than twenty-five persons, the paddles, boathook and flares need not be carried.

(4) All buoyant apparatus carried by a Home-trade ship shall be provided with a suitable approved equipment.

(5) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour, and the equipment shall remain in the boat or buoyant apparatus throughout the voyage, while the ship is at sea, or shall be stowed in some convenient place where it will be immediately available in case of emergency.

Side ladders.

40 In all ships, approved rope ladders shall be carried in proportion to the number of davits fitted, namely, not less than one ladder for each two sets of davits, provided that no ship shall be required to carry more than 10 ladders. The ladders shall be of sufficient length to reach the waterline at the vessel's lightest sea-going draught, and shall be carried in such a manner as to be always available for use in embarking the persons in the boats or rafts

Illumination.

41. On all foreign-going steamships in which the boat deck is more than 30 feet above the water, provision shall be made for the illumination from the ship of the life-boats when alongside and in process of or immediately after being launched.

Life-jackets.

42. An approved life-jacket shall mean a jacket of approved material and construction which is capable of floating in fresh water for 24 hours with 15 lbs. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Life-jackets the buoyancy of which depends on air compartments are prohibited.

Life-buoys.

43. (1) (*a*) An approved life-buoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lbs. of iron suspended from it.

(*b*) Life-buoys filled with rushes, cork shavings, granulated cork or any other loose granulated material, or whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All life-buoys shall be fitted with beckets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

Position of life-buoys and life jackets

44. All life-buoys and life-jackets shall be suitably placed to the satisfaction of the Government Surveyor and so as to be readily accessible to all persons on board ; and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Life-buoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life-jackets may be stored either in battens over the passenger decks or in boxes under the charge of serangs as well as in the buoyant seats when these are used. The contents of the boxes should be clearly painted on them and illustrated notices in the vernacular should be posted up in different parts of the ship explaining to passengers where to find life-jackets and how to use them. In addition, their use should be demonstrated by the crew both during boat drills and periodically at other times.

Exemptions.

45. (1) Any boat which forms part of the equipment of a ship that was launched before the date of the promulgation of these rules and which has been inspected and approved by the local Government before that date, may be accepted as equivalent to a life-boat for a period of two years from that date, so long as it remains in good condition.

(2) Boats which were ordered before the date of the promulgation of these rules in order to complete the equipment of a ship, but which were not delivered in time to be inspected by the local Government before that date, may be accepted as equivalent to life-boats for a period of two years from that date, so long as they remain in good condition:

Provided that such boats shall not be so accepted, unless—

(*a*) they have been inspected, where this has not already been done;
(*b*) they would have complied with the requirements of the rules in force prior to the promulgation of these rules.

46. (1) If it appears to the Government Surveyor, on the application of the owner of any ship, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these rules, he may direct that one or more sets of davits may be dispensed with in that ship subject to such conditions, if any, as he may require:

Provided that, in the case of a foreign-going ship the number of davits fitted shall not be less than the minimum number of open boats of the first class except in the following case:—

When a ship has been granted a passenger certificate previous to the introduction of these rules, the minimum number of sets of davits may, if the ship is between 245 feet and 460 feet in length, be one less, and if the ship is 460 feet or more in length, two less (one on each side of the ship) than the minimum number of open boats specified in column P of the Table in Appendix I to these rules.

Provided further that in the case of a foreign-going ship the owner of the ship in question shall be required to prove, by a test made in the presence of a Government Surveyor, that all the boats can be launched in a time to be fixed by him. The conditions of this test shall be as follows:—

(*a*) the ship shall be upright and in smooth water;
(*b*) the time shall be the time required from the beginning of the removal of the boat covers, or any other operation necessary to prepare the boats for lowering, until the last boat or pontoon raft is afloat;
(*c*) the number of men employed in the whole operation shall not exceed the total number of boat hands that will be carried on the vessel under normal service conditions;
(*d*) each boat, when being lowered, shall have on board at least two men, and its full equipment as required by these rules.

(2) The Government Surveyor may in his discretion impose as a condition of such exemption as aforesaid in respect of a home-trade ship of the first or second class, launched before the introduction of these rules, that the boats carried shall be of a required capacity greater than the minimum capacity prescribed in rule 34.

(3) If it appears to the local Government, on the application of the owner of any ship, that it is not practicable or reasonable in a particular case to require that pontoon life-boats, made before the date of the promulgation of these rules, and carried on ships of which the keel was laid on or before that date, shall have the minimum freeboard specified in these rules, or the bottom and deck made in two thicknesses with textile material between, the local Government may in their discretion dispense with full compliance with the rules in these respects until two years from that date, subject to such conditions, if any, as the local Government may impose.

(4) If a small ship is unable to carry more than one boat, the local Government may in their discretion exempt that ship from carrying more than one, but whenever one boat only is carried there shall be proper provision to enable it to be placed readily in the water on either side of the ship.

(5) If it appears to the Government Surveyor that it is impracticable to carry the number of boats required by these rules, the possible number (in the absence of large structural alterations) shall be found by measurement, after taking into consideration the practicability of launching these boats in rough weather.

Manning of life-boats, etc.

47. Boat's crews shall be carried in all ships to which these rules apply on the following scale, namely:—

28 feet boats over and under this length.	1 officer or petty officer and 4 men.
25 feet boats over and under 28 feet.	1 officer or petty officer and 3 men.
20 feet boats over and under 25 feet.	1 officer or petty officer and 2 men.
Under 20 feet	2 men.

48. From a date to be notified by the Governor General in Council each life-boat shall be in charge of a minimum number of life-boatmen holding certificates issued under the authority of the local Government concerned. In order to obtain the certificates, the men must prove that they have been trained in all the operations connected with the launching of life-boats and the use of oars; that they are acquainted with the practical handling of the boats themselves; and further that they are capable of understanding and answering the orders relative to life-boat service.

Life-boatmen.

49. A man capable of working the motor shall be assigned to each motor-boat. The allocation of certificated life-boatmen to each boat and raft shall remain within the discretion of the master according to circumstances. The officer or petty officer placed in charge of each boat or set of rafts shall have a list of its crew and shall see that the men placed under his orders are acquainted with their several duties and stations. The duty of seeing that the boats, pontoon-rafts and other life-saving appliances are at all times ready for use shall be assigned to one or more officers.

Motormen.

50. The muster list shall assign duties to the different members of the crew in connection with—

Musters and drills.

(*a*) the launching of the boats attached to davits;
(*b*) the preparation of the other boats;
(*c*) the equipment of the boats generally;
(*d*) the closing of the bulkhead doors, etc.;
(*e*) the mustering of the passengers.

It shall also assign to the members of the Steward's Department their several duties in relation to the passengers at a time of emergency. These duties shall include—

(*a*) warning the passengers;
(*b*) seeing that they are dressed and have put on their life-jackets in a proper manner;
(*c*) assembling the passengers;
(*d*) keeping order in the passages and on the stairways and generally controlling the movements of the passengers.

51. The muster-list shall specify definite alarm signals for calling all the crew to their boat and fire stations and shall give full particulars of these signals. Before the vessels sails, the Master shall draw up and exhibit the muster-list and the proper authority shall be satisfied that the muster-list has been prepared for the ship and posted in several parts of the ship and in particular in the crew's quarters.

Muster-list.

52. (1) In all ships to which these rules apply, a boat drill and a water-tight door drill shall be held as soon as possible after leaving the original port of departure and at convenient intervals of not less than a week during the voyage. Such drills shall be recorded in the official log.

Drill.

(2) In case of ships engaged in the home trade where the voyage is of less than one week's duration, one at least of each of these drills shall be held during each voyage, but in cases in which the voyage is such and of such short duration as to make compliance with these requirements impracticable, the local Government shall prescribe a suitable procedure for each class of restricted Home trade passenger certificate issued.

(3) The Government Surveyor shall be satisfied, in each case before the ship leaves port, that a return has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organised to the satisfaction of the Government Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(4) In carrying out the boat and water-tight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to see the crew putting their life-jackets on. Entries in the official log shall state whether and when this has been done.

53. In all ships which are required under these rules to carry two or more boats, an emergency boat shall be carried slung out and ready for action every night except in the case of such classes of restricted Home trade voyage as may specially exempted from the requirements of this rule by the local Government.

Emergency boat.

54. Special boat-decks shall be kept entirely clear of passengers, and in the case of bridge-decks and poop-decks, which are utilized for carrying passengers as well as boats and rafts, a space sufficient for the working of the boats and rafts shall be railed off.

Boat-decks

55. (1) No boats, or buoyant seats the whole of which cannot be efficiently put into the water in one hour shall be deemed to form part of the equipment required in these respects for any vessel.

Time allowed for launching.

(2) The equipment of boats, and buoyant seats of any vessels shall not be passed by the Government Surveyor as satisfying these rules unless the whole of it can be efficiently placed in the water in one hour.

No. F.-33-VI.-F.E.-25.—The following Resolution by the Secretary of State for India in Council is published for general information :—

In exercise of the powers conferred by sub-section (*2*) of section 96B of the Government of India Act, the Secretary of State in Council, with the concurrence of the majority of votes at a meeting of the Council of India held on the 9th day of September 1925, hereby makes the following amendments of the General Provident Fund Rules :—

1. In Rule 6 of the said Rules, for the first three sentences of note 2 the following shall be substituted, namely :—

"Before the amount at an officer's credit in the Fund is finally paid under Rule 10, 15 or 18, his account shall be credited with interest up to the end of the month preceding that in which the payment is made, or up to the end of the sixth month after the end of the month in which he quitted the service or died, whichever of these periods is less".

2. In Rule 20 of the said rules—

(*i*) In clause (*4*) (*a*) after the word "or" where that word first occurs, the following shall be inserted, namely :—

"Unless the Government of India in special circumstances otherwise direct".

(*ii*) For the second sentence in clause (*4*) (*c*) the following shall be substituted, namely :—

"Recovery may also be postponed by the sanctioning authority while an advance granted to the officer otherwise than from the Fund is being recovered".

(*iii*) For clause (*5*) the following shall be substituted, namely :—

"(5) When an advance is repayable in 12 instalments, an additional instalment, representing interest and equivalent to 4 per cent. of the amount of the advance, shall be paid in the month following that in which the last instalment is paid. Similarly, two additional instalments representing interest, each equivalent to 4 per cent. of the total amount of the advance shall be paid when the advance is repayable in more than 12 instalments, provided that where an advance is recovered in more than 24 instalments the Government of India shall determine what interest shall be paid by the subscriber and the number of instalments in which it shall be paid.

"In calculating interest as above, a fraction of a rupee should be taken at the next higher whole rupee if it exceeds eight annas, and should be ignored if it does not".

RESOLUTION.

Simla, the 15th October 1925.

No. F.-20-XI-F.—It is proposed to make the following amendments in the Currency Notes (Refund) Rules, 1921, in exercise of the powers conferred by section 29 of the Indian Paper Currency Act, 1923 (X of 1923). The amendments will not come into force before the 1st April 1927, and any objections made before the 31st March 1926 will be taken into consideration.

2. The object of the proposed amendments is to discourage the cutting of notes. This practice has been proved by the repeated experience of the Currency Department to lend itself to the commission of fraud. The examination of divided notes also entails the expense of much time and care in the offices of the Department and consequent delay in encashment, and inconvenience to the public. Such delay can, of course, be minimised by the appointment of larger establishments than would otherwise be necessary, but the additional cost to the tax-payer of such establishments is heavy and the difficulties of dealing with divided notes have increased considerably with the expansion of the note circulation and is now a distinct impediment to the smooth administration of the currency note system. It seems desirable, therefore, to take steps to discourage the practice which, if not actually prohibited in other countries, is only recognised tacitly, because it has not reached elsewhere the dimensions prevailing in India ; and, though there are objections of a temporary nature to a change of system in this respect, it is thought that the time has come when these temporary difficulties should be faced. It is recognised, however, that any procedure to be adopted to this end in view must be considerate and cautious and the amendments proposed are framed on conservative lines. The only two changes of importance in the Refund Rules are the following :—

(*a*) No claims on half or mismatched notes of the denominations of Rs. 5 and Rs. 10 will be admitted, *i.e.*, the possession of a half note of one of these denominations will no longer constitute a claim to payment of the full value of the note, although cut notes properly joined together will be paid as hitherto and claims on mutilated notes will be admitted if the portion presented is clearly more than half the note and the note can be identified by the enquiring officer as genuine.

(*b*) On half notes of the denominations of Rs. 50 and upwards half the value of the note will be paid at a Currency Office fourteen working days after its presentation, provided that in the meantime the counterpart has not been presented with a claim to the full value of the note. On the other hand, claims to full value on a note of which only a half is presented will be dealt with in the same way as claims on lost or wholly destroyed notes, and claimants will not obtain payment till after the lapse of 5 or 6 years instead of obtaining payment after the lapse of a period varying from six months to a year. In short the effect of this change is to make it easier for the public to obtain half value on a half note, but to make it more difficult for them to obtain full value on a half note. It will, therefore, increase the risk of cutting note.

3. The main objection which may be urged against the proposed amendments is that they would increase the risk of remittance of notes by post. In view of the facilities for cheap remittance which are now given by Government and the Imperial Bank, by means of bank transfers, currency transfers, money orders and postal insurance of notes up to the value of Rs. 2,000, it does not appear that the public would be seriously inconvenienced if notes were never cut for remittance by post. But the amendments proposed in the rules will not absolutely prevent the cutting of notes for remittance by posts : they will merely increase the risk of doing so, and it will be open to the public to take this risk if they wish to do so, or to insure against it.

DRAFT AMENDMENT OF CURRENCY NOTES REFUND RULES.

Rule 2.—Substitute the following for Rule 2(*g*) :—

"A mutilated note means a note of which a portion is missing, provided that the portion presented is clearly more than half of the note, and that if the portion presented has been joined, each part of such portion is identifiable as part of the same note."

Rule 3.—For Rule 3 (*1*) as substituted by the G. I. F. D. Notification $\frac{\text{Accounts and Finance}}{\text{Paper Currency}}$ No. 2252-F., dated the 7th November 1922, substitute the following :—

"Claims in respect of notes of which the denomination does not exceed ten rupees may be presented at any office of issue and shall be dealt with at the office of issue at which they are presented."

Delete Rule 3 (*2*) as inserted by the above notification and re-number the present Rules 3 (*3*) and 3 (*4*) as Rules 3 (*2*) and 3 (*3*).

Rule 5.—Substitute "ten rupees" for "two and a half rupee" at the end of sub-rule (*2*).

Insert the following as Rule 6A :—

"6A. Claims to the value of a half note shall be rejected unless the number of the note is identified by the enquiring officer on the half note ; and the half note is entire and has not been divided and joined together."

In rule 7 delete from the words "unless the portion presented" to the end and substitute "unless in the opinion of the enquiring officer the portion presented clearly forms part of a genuine note and the missing portion is too small to be used in support of any other claim under these rules."

In Rule 9 insert the words "of a denomination exceeding ten rupees" after "mutilated note".

Rule 11.—Substitute the following for rule 11 :—

"(1) Claims to the half value of a note of which half only is presented by the claimant shall be dealt with as follows :—

(*a*) If a counterclaim to the full value of the note has not been received before the presentation of the claim or within fourteen working days thereafter, half the value of the note may be paid to the claimant on the expiration of such fourteen days.

(*b*) If full value of the note has already been paid on a claim under Rule 14, the claim shall be rejected.

(*c*) If a counterclaim to the full value of the note has been received before the presentation of the claim or is received before payment of half the value of the note in accordance with clause (*a*), the enquiring officer shall consider both claims together and may order that one claimant be paid forthwith the full value of the note, or that both claimants be paid forthwith half the value of the note or may reject both claims."

(2) Claims in respect of a mismatched note shall be deemed to be separate claims in respect of each half thereof, and shall be dealt with as provided in sub-rule (*1*).

Rule 13.—Insert the words "or of which the portion presented is neither a half note nor a mutilated note" after the words "wholly destroyed" in Rule 13 (1) (*b*).

Rule 14.—Substitute the following for Rule 14 :—

"14. If the enquiry has been made in respect of a claim under Rule 13 (1) (*a*), the Deputy Controller on receipt of the record from the enquiring officer, or the enquiring officer, if empowered under the proviso to Rule 6 (*a*), may pass orders as follows :—

(1) If the counterpart has been presented and half the value of the note has been paid under Rule 13, he may order half the value of note to be paid forthwith ;

(2) If the counterpart has been presented with a claim to half the value or the full value of the note and that claim is pending, he shall consider the two claims together and may order that one claimant be paid forthwith the full value of the note, or that both claimants be paid forthwith half the value of the note, or may reject both claims ;

(3) If the counterpart has not been presented,

(*a*) if he is not satisfied that the counterpart has been lost or destroyed in such circumstances that there is no probability of its being presented at some future date, he may order payment of half the value of the note forthwith ;

(*b*) if after consideration the record of the enquiry under sub-rule (*2*) of Rule 13 he is so satisfied, and is satisfied that the claimant was the last lawful holder of the whole note, he shall cause to be published in the *Gazette of India* and in three successive issues of the local official Gazette a notification stating the particulars of the note of which one half is alleged to have been lost or destroyed, and the name of the claimant, and calling upon any person having a claim in respect of such note to submit the same forthwith ;

(*c*) if, on the expiration of two years from the date of the first publication under the sub-clause (*b*), the counterpart of the half note has not been presented, the Deputy Controller may order an amount equivalent to the full value of the note to be invested in Government securities, or to be deposited in the Post Office Savings Bank ;

(*d*) if, on the expiration of a period which shall be determined by the Deputy Controller, but which, unless the Governor General in Council otherwise directs, shall not be less that five years after such first publication, the counterpart of the half note has not been presented, the Deputy Controller shall order the securities referred to in sub-clause (*c*), or the deposit in the Post Office Savings Bank, as the case may be, with the interest which has in the meantime accumulated thereon, to be delivered to the claimant, or, if the claimant is dead, to his legal representative, on a bond, with or without sureties, executed in the form set forth in Schedule I or II ;

(*e*) if, prior to the expiration of such period, the counterpart is presented with a claim to the full value or half the value of the note, the proceedings under sub-clauses (*b*) to (*d*) shall be cancelled and the two claims shall be dealt with under clause (*2*)".

List of Schedules.

Substitute "Rules 14 (*3*) (*d*)" for "the proviso to Rule 14 (*c*)" in entries under Schedules I and II.

Schedule I.

For "lost" at the end of the second paragraph substitute $\frac{\text{"wholly destroyed"}}{\text{lost}}$.

Schedule II.

For "lost" at the end of the second paragraph substitute $\frac{\text{"wholly destroyed"}}{\text{lost.}}$.

No. 32 OF 1925.

A Bill to provide for the punishment of corrupt practices by or relating to members of legislative bodies constituted under the Government of India Act.

WHEREAS it is expedient to provide for the punishment of corrupt practices by or relating to members of legislative bodies constituted under the Government of India Act ; It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Legislative Bodies Corrupt Practices Act, 1925.

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Insertion of new Chapter IXB in the Indian Penal Code.

2. After Chapter IXA of the Indian Penal Code the following Chapter shall be inserted, namely :— XLV of 1860.

"CHAPTER IXB.

Of Offences by or relating to members of Legislative Bodies.

"Member of a legislative body" defined.

171J. For the purposes of this Chapter "member of a legislative body" means a member of either Chamber of the Indian Legislature or of a Legislative Council constituted under the Government of India Act when acting as such member or as a member of any body appointed by such Chamber or Council.

Bribery of members of legislative bodies.

171K. (*1*) Whoever—

(*a*) gives a gratification to any person with the object of inducing him or any other person to do or forbear to do any act as a member of a legislative body or of rewarding any person for having done or forborne to do any act as such member, or

(*b*) accepts either for himself or for any other person any gratification as a reward for doing or forbearing to do any act as a member of a legislative body or for inducing or attempting to induce any other person to do or forbear to do any act as such member,

commits an offence under this section.

(*2*) A person who offers, or agrees to give, or offers or attempts to procure, a gratification shall be deemed to give a gratification.

(*3*) A person who obtains or agrees to accept or attempts to obtain a gratification shall be deemed to accept a gratification, and a person who accepts a gratification as a motive for doing what he does not intend to do, or as a reward for doing what he has not done, shall be deemed to have accepted the gratification as a reward.

Punishment for offence under section 171K.

171L. Whoever commits an offence under section 171K shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both."

Amendment of the Code of Criminal Procedure.

3. (*1*) In section 196 of the Code of Criminal Procedure, 1898, after the figures and letter "IXA" the word, figures, and letter " or IXB " shall be inserted. V of 1898.

(*2*) In Schedule II to the Code of Criminal Procedure, 1898, after the entries relating to Chapter IXA of the Indian Penal Code, the following shall be inserted, namely :— V of 1898. XLV of 1860.

"CHAPTER IXB.

OFFICES BY OR RELATING TO MEMBERS OF LEGISLATIVE BODIES.

171L	Bribery of members of legislative bodies.	Shall not arrest without warrant	Summons.	Bailable.	Not compoundable.	Imprisonment for three years, or fine, or both.	Court of Sessions, Presidency Magistrate or Magistrate of the first class."

STATEMENT OF OBJECTS AND REASONS.

In paragraph 91 of their report, the Reforms Inquiry Committee recommended that the corrupt influencing of votes of members of the legislatures by bribery, intimidation and the like should be made penal offences under the ordinary criminal law, and paragraph 124 indicates that this recommendation was the unanimous recommendation of the Committee as a whole. The tender of a bribe to, or the receiving of a bribe by, a member of a legislature in India as an inducement for him to act in a particular manner as a member of the legislature is not at present an offence. On the other hand the intimidation of a member for this purpose which was also mentioned by the Committee is already an offence under sections 503, 506 and 507 of the Indian Penal Code.

The Bill proposes to penalise—

(1) the offering of a bribe to a member of a legislature in connection with his functions as such ; and

(2) the receipt or demand by a member of a legislature of a bribe in connection with his functions as such.

The definition adopted for the offence follows that in section 171B of the Code in regard to the offence of bribing a voter at an election, and in order to prevent vexatious prosecutions the offence has been included in section 196 of the Code of Criminal Procedure.

CALCUTTA, *the 12th November 1925.*

A. D. STEWART, MAJOR, I.M.S., *Director of Public Health, Bengal (offg.).*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for October 1925.

I. **Character of the season.**—During the first-half of the month wet weather prevailed accompanied by general rain throughout the province. The fall was generally above the average excepting in the Rajshahi Division.* The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for and the sowing of the spring crops commenced under favourable conditions. The sowings of the early varieties were, however, delayed in some of the districts owing to heavy rainfall. Dry and sunny weather towards the latter part of the month facilitated the field operations a good deal. Reaping of transplanted autumn paddy continued in the West Bengal districts.

III. **State of standing crops.**—Good rainfall helped the flowering especially of the late transplanted paddy and improved the prospects of standing crops with the exception of cotton which suffered by excessive rains.

IV. **Prospects and probable outturn.**—The outturn of sugarcane was estimated at 83 per cent. of the normal. The prospects of deep-water paddy are generally reported to be satisfactory and those of transplanted variety fair.

V. **Damage to standing crops.**—No appreciable damage to crops was reported during the month.

VI. **Condition of agricultural stock.**—The condition of live-stock was fair. Sporadic cases of cattle-disease were, however, reported from eleven districts.

VII. **Failure of pasturage and fodder.**—Scarcity of fodder has not been reported from any part of the province.

VIII. **Prices of food-grains.**—During the second-half of the month the price of common rice of the cheapest quality rose in 7 districts, fell in 7 and remained stationary in the rest. It ranged from 5 seers per rupee at Rajshahi and Faridpur to 7 seers at Midnapore.

IX. **Condition of agricultural population.**—The condition of agricultural population was reported to be fair on the whole.

"22. (*1*) Where the immediate landlord of an occupancy holding is a proprietor or permanent tenure-holder and the entire interests of the landlord and the raiyat in the holding become united in the same person by transfer, succession or in any other way whatsoever, such person shall have no right to hold the land as a raiyat, but shall hold it as a proprietor or permanent tenure-holder, as the case may be.

(*2*) Where the entire raiyati interest in an occupancy holding is acquired by transfer, succession or in any other way whatsoever by a person who is a proprietor or permanent tenure-holder, and is interested in the lands of the holding as a joint or co-sharer immediate landlord, the raiyati interest with all the rights attached thereto in the lands of the holding shall be extinguished and the interest thereafter held by such proprietor or permanent tenure-holder in virtue of such acquisition shall be deemed to be a permanent tenure created in respect of such lands under the operation of this sub-section, and he shall pay to the other immediate landlords of the former raiyat on account of such tenure the same rent as was paid by the former raiyat to those landlords on account of the former holding, subject to the principles of this Act regulating the enhancement and reduction of rents of permanent tenure-holders :

Provided that, if the former raiyat held at a rent or rate of rent fixed in perpetuity, such rent or rate of rent shall not be changed except in accordance with the provisions of section 52 ;

(*3*) Subject to the provisions of sub-section (*6*), the person, if any, who was the immediate under-raiyat of the former occupancy raiyat, if such under-raiyat was an occupancy under-raiyat in respect of such lands or a settled raiyat of the village, shall become an occupancy raiyat in respect of the lands of the former raiyati holding, and, if he was a non-occupancy under-raiyat of the village, he shall become a non-occupancy raiyat in respect of such lands, and the rent thereafter payable by such person as raiyat shall in either case be the rent that was payable by him as under-raiyat, subject to the provisions contained in this Act as to the enhancement and reduction of the rent of occupancy or non-occupancy raiyats, as the case may be.

(*4*) If there is any incumbrance on the lands of the former raiyati holding, such incumbrance, unless it is annulled in proceedings under Chapter XIV, shall thereafter be deemed to be an incumbrance on the interest of the landlord, as proprietor or permanent tenure-holder, which continues under sub-section (*1*) or accrues under sub-section (*2*) in respect of such lands.

(*5*) If the right of an occupancy under-raiyat and his immediate landlord becomes united in the same person by transfer, succession or in any other way whatsoever, or if an occupancy under-raiyat becomes an occupancy raiyat under the provisions of sub-section (*3*), the right of the occupancy under-raiyat, as such, shall be extinguished, and any incumbrance on the holding of such occupancy under-raiyat shall, unless it is annulled under the provisions of Chapter XIV, attach to the interest of the said immediate landlord or to the interest of the said occupancy raiyat, as the case may be.

Any immediate under-raiyat of such occupancy under-raiyat shall, unless his interest is annulled under the provisions of Chapter XIV, hold as under-raiyat under the said immediate landlord, or the said occupancy raiyat, as the case may be, and shall, subject to the provisions of this Act as to the enhancement and reduction of such rent, pay to such immediate landlord or to such occupancy raiyat, as the case may be, the rent that was payable by him to his former landlord immediately before the extinguishment of the interest of that landlord.

(*6*) Nothing contained in this section shall affect—

(*i*) the rights of a landlord who purchases a holding at a sale in execution of a decree for arrears of rent to annul incumbrances on such holding in the manner provided in Chapter XIV ;

(*ii*) the rights of purchase conferred on co-sharer immediate landlords by section 26G, where the entire raiyati or under-raiyati interest in an occupancy holding has been acquired by another co-sharer immediate landlord of the same ;

(*iii*) any right of ejectment which may be exercised by a landlord under section 26H.

(Clauses 18, 19.)

These rights may be exercised as if the occupancy holding of the former raiyat and any holding of an under-raiyat thereunder had continued to exist.

(7) A person holding land as a temporary tenure-holder or farmer of rents shall not, while so holding, acquire a right to hold as a raiyat any land comprised in his temporary tenure or farm.

Explanation.—A person having a right to hold the lands of an occupancy holding as a raiyat does not lose it by subsequently becoming jointly interested in the land as proprietor or permanent tenure-holder, or by subsequently holding the land as a temporary tenure-holder or in farm.

Illustrations.

1. X, a raiyat having the entire raiyati interest in an occupancy holding immediately under A, a sole proprietor, purchases the interest of A. X is a proprietor in respect of the lands formerly held by him as raiyat.

2. A is a sole proprietor. X is a raiyat having the entire raiyati interest in an occupancy holding under A. Y is an under-raiyat under X in respect of half the lands of the holding of X. X cultivates the remainder. A purchases by private purchase the interest of X. Y becomes a raiyat under A in respect of the lands held by him and A holds the remainder *khas* as proprietor. A then settles the *khas* lands with Z, a raiyat. Z is a raiyat under A in respect of those lands.

3. A, B and C are co-sharer permanent tenure-holders, and are the immediate landlords in respect of an occupancy holding held by X. A purchases the raiyati interest of X who cultivates the holding himself. A becomes a permanent tenure-holder under A, B and C in respect of the lands, and, if he thereafter settles them with Z, a raiyat, Z becomes a raiyat under the permanent under-tenure-holder A.

When a transferee is divested of his right, title and interest under the provisions of this sub-section, he shall for the purposes of clauses (*a*), (*c*) and (*d*) of section 156 be deemed to be a raiyat ejected from his holding by proceedings for his ejectment commencing on the date on which the landlord applied to the Court under sub-section (*1*).

Provided also that when application has been made under sub-section (*1*) by co-sharer immediate landlords in accordance with the first proviso to this sub-section, any of the remaining co-sharer immediate landlords, including the transferee, if one of them, may within the period of two months referred to in sub-section (*1*) apply to join in the application of the co-sharer immediate landlords aforesaid. Such application shall be granted if at the time of making the application or within such period as the Court may fix [not extending beyond the period of two months referred to in sub-section (*1*)] the co-sharer landlord applying under this proviso deposits in Court, for payment to the co-sharer landlords by whom the deposit has been or is to be made, such sum as the Court shall determine as the share to be paid by him for the purposes of sub-section (*1*).

Limitation on mortgage by occupancy raiyat.

26-I. (*1*) An occupancy raiyat may enter into a complete usufructuary mortgage in respect of his holding or of a portion or share thereof for any period which does not and cannot, in any possible event, by any agreement, express or implied, exceed nine years.

(*2*) Every mortgage so entered into shall be registered under the Indian Registration Act, 1908.

(*3*) Notwithstanding anything contained elsewhere in this Act or in any other law, no other form of usufructuary mortgage for any term entered into by an occupancy raiyat in respect of his holding or portion or share thereof shall have any force or effect, and no document creating or purporting to create a complete usufructuary mortgage of the holding or of a portion or share of the holding of an occupancy raiyat for a period exceeding or which can exceed nine years, or an usufructuary mortgage for any term of such holding, portion or share, other than a complete usufructuary mortgage, shall be admitted to registration, nor shall any such document be received in evidence or acted on in any Court of law or by any public servant.

(*4*) Neither the acceptance of a landlord's fee on account of the transfer of an occupancy holding or portion or share thereof nor the making of an application to the Court to fix the market value in accordance with proviso (*i*) to section 26 D or the proviso to sub-section (*1*) of section 26 F shall operate as an admission of the amount or fixity of rent or the area or any incident of such occupancy holding other than the existence of an occupancy right therein, or be deemed to constitute an express consent of the landlord to the division of the holding or to the distribution of the rent payable in respect thereof."

For the purposes of section 37, however, the full rent shall be deemed to have come into force from the date of the decree."

23. For section 40 of the said Act the following shall be substituted, namely :—

"40. (*1*) When a raiyat or an under-raiyat having occupancy rights in a holding pays for the holding rent in kind or on the estimated value of a portion of the crop, or at rates varying with the crop, or partly in one of those ways and partly in another, or partly in any of those ways and partly in cash, either the tenant or the landlord may apply to have the rent commuted to a money rent.

Commutation.

(*2*) The application may be made to the Collector or to a Subdivisional Officer or to a Revenue Officer appointed by the Local Government under the designation of Settlement Officer or Assistant Settlement Officer for the purpose of making a survey and record-of-rights under Chapter X, or to any other officer specially authorized in this behalf by the Local Government.

(*Clause 23.*)

(*3*) A case for commutation may be determined by the officer who receives the application, or by some other officer competent under sub-section (*2*) to receive applications for commutation, to whom the case is transferred by him.

(*4*) The officer receiving the application or the officer to whom the case is transferred, as the case may be, shall cause notice to be given in the prescribed manner to the opposite party, and shall fix a date for determination of the case.

(*5*) If the application is opposed, the said officer shall decide whether in all the circumstances of the case it is reasonable to grant it, and, in particular, he shall have regard to the following circumstances :—

(*a*) whether the rent in kind is mainly required for the subsistence of the landlord and his household, and not for purposes of trade ;

(*b*) in the case of land held under trust or other legal obligation for a religious or charitable purpose, whether the rent in kind is required for consumption by, or for the subsistence of, the beneficiaries of the endowment or for the due performance of worship ;

(*c*) whether the landlord of the applicant pays in kind or otherwise as specified in sub-section (*1*) his rent for the tenure or holding ;

(*d*) whether the tenant receives in respect of any portion of the land rent in kind or otherwise as specified in sub-section (*1*) from a sub-lessee ;

(*e*) if the land is in an area under reclamation, whether it would be inequitable to fix a money rent in the conditions prevailing at the time when the application is made.

(*6*) If the application is unopposed or if the said officer after considering the case put forward by both parties decides to grant it, he shall determine the sum to be paid on commutation as money rent and the premium, if any, to be paid to the landlord for the commutation, and shall order that the tenant shall, in lieu of paying the rent in kind or otherwise as specified in sub-section (*1*), pay the sum so determined and the premium, if any.

(*7*) In making the determination of the sum to be paid as money rent, the officer shall have regard to—

(*a*) the average money rent payable by occupancy raiyats or occupancy under-raiyats, as the case may be, for land of a similar description and with similar advantages in the vicinity ;

(*b*) the average value of the rent actually received by the landlord during the preceding ten years, or during any shorter period for which evidence may be available ;

(*c*) the charges incurred by the landlord in respect of irrigation under the system of rent in kind, and the arrangements made on commutation for continuing those charges ;

(*d*) improvements effected by the landlord or by the tenant in respect of the holding and the rules laid down in section 33 regarding enhancement of rent on the ground of a landlord's improvement ; and

(Clause 23.)

(*e*) any sum agreed to by the parties to be paid as money rent :

Provided that—

(*i*) the officer shall in no case determine a rent which is unfair or inequitable, or, except for special reasons to be recorded in writing, which exceeds the average value of the rent actually received, as determined under clause (*b*) ; and

(*ii*) if at any time during the preceding fifteen years the rent in kind or otherwise as aforesaid has been substituted for a money rent, or if the rent has been enhanced, regard shall be had to the rent paid before the substitution or enhancement took place and to the rules laid down in this Act for the guidance of the Civil Court in enhancing rents.

(*8*) If the average value of the rent actually received, as determined under clause (*b*) of sub-section (*7*), is materially in excess of the sum determined as rent under sub-section (*6*), then the officer shall determine a sum to be paid as premium. In determining the premium the officer shall primarily have regard to the market value of the land less the capitalized value of the rent settled, but the amount so determined shall not exceed fifteen times the rent determined under sub-section (*6*).

(*9*) The order for commutation shall be in writing, shall state the grounds on which it is made, and shall, in the absence of any special reasons to the contrary to be recorded in writing, take effect from the beginning of the agricultural year next after the date on which it is passed.

(*10*) The officer may on the application of the tenant order that the premium shall be paid by instalments not exceeding fifteen in number, that the first instalment shall be paid at the beginning of the agricultural year, in which the rent settled under sub-section (*6*) takes effect, and that one of the remaining instalments shall be paid at the beginning of each of the succeeding agricultural years until the premium is paid in full.

(*11*) The premium or the instalments thereof shall be payable and recoverable as rent, but interest shall only be awarded in respect of such instalments as are not paid by the dates fixed under sub-section (*10*).

(*12*) If the officer refuses the application, or determines a rent or premium or both, his order shall be subject to appeal to the Special Judge appointed under section 115 C, unless the application has been made in the course of proceedings under Part II of Chapter X, in which case the provisions of sections 104 G and 104 H shall apply :

Provided that a refusal shall be no bar to proceedings being again taken under this section after five years from the date of refusal, if circumstances have in the meantime changed.

(*13*) Notwithstanding anything contained elsewhere in this Act or in any other law, no suit shall be brought or application made in any Court in respect of any order passed under this section, save as provided in this section."

Illustration.

B and C take joint settlement of a tenure from A, a landlord, the lease providing that they shall be liable to ejectment, if the lands of the tenure are used otherwise than for agricultural purposes. C lets out certain lands of the tenure to X, a raiyat, without the written consent of B, and permits X to make a brick-field on the lands, thereby rendering both B and C liable to ejectment by A. STATEMENT OF OBJECTS AND REASONS.

Since the Bengal Tenancy Act was passed in 1885, there have been several amending Acts. Important changes were made for Western Bengal by the Bengal Tenancy (Amendment) Act, 1907, and for Eastern Bengal by the Eastern Bengal and Assam Tenancy (Amendment) Act, 1908, but since then the amendments have been of a minor kind. During the last twenty years the experience gained from litigation and from the preparation of records-of-rights for areas covering two-thirds of Bengal has brought to light defects in the Act which require remedy, and has revealed changes in agrarian conditions which demand a substantial modification in the law.

2. In a resolution passed on the 7th July, 1921, the Bengal Legislative Council recommended the appointment of a Committee to consider and report what amendments were needed in the Bengal Tenancy Act. The Committee was appointed by the Government of Bengal in August, 1921, and presented their report, together with a preliminary draft of a Bill to amend the Act, on the 19th December, 1922. The circulation of this draft for opinion produced many criticisms, and modifications have been made; but the present Bill is based substantially on the draft prepared by the Committee.

3. The widespread practice of subdivision and subinfeudation of rights in land has necessitated the revision of the fundamental provision of the Act, by which the occupancy tenant right is limited to one person in the chain of those interested in the land. A common result of this limitation has been that the cultivating tenant, for whom this occupancy right was intended, has become a tenant-at-will under the holder of the occupancy right. It is proposed in the Bill to meet this difficulty by giving to persons holding land under the tenant who enjoys the legal status of raiyat a right of occupancy as against his immediate landlord. The Bill therefore provides for giving an occupancy right to the under-raiyat, but such a right will not be a protected interest under section 160.

4. The difficulties in the existing law regarding the transfer of occupancy holdings were brought to the notice of Government by the High Court, which represented the desirability of legislation to make it clear whether, in the absence of a usage entitling a raiyat to sell his holding without the landlord's consent, such a sale is void *ab initio* or merely voidable at the will of the landlord. It is proposed to recognise the prevalent practice and to give to the occupancy tenant a right of transfer. At the same time it is desirable to secure to the landlord the premium which in most parts of Bengal he now levies as the price of his recognition of the transferee as his tenant, and also to protect him against undesirable tenants. The Bill therefore includes provisions for the payment of a transfer fee to the landlord, and also gives him the right to have the holding transferred to himself on payment to the transferee of the consideration money and 10 per cent. compensation. The transfer fee will not be payable in the case of a transfer by bequest in favour of a natural heir, nor will the landlord have the right to purchase the holding if the transfer is of this kind or is made to a co-sharer in the tenancy.

5. Under the existing law, the right of tenants in trees is left to custom, but the uncertainty of custom has led to much difficulty and litigation. The Bill gives to the occupancy raiyat and occupancy under-raiyat complete rights in trees on his land, except that in the case of valuable trees a fee of one-fourth of the value is to be paid to the landlord when the tree is felled or disposed of.

6. It is proposed to replace section 40 of the Act with a new section dealing with the commutation of produce-rents into money-rents, because the present section is not suitable to conditions in the province as now constituted. The right to apply for commutation will be given to the under-raiyat having occupancy rights as well as to the raiyat. It is proposed to except from commutation cases in which the landlord is dependent upon the produce-rent for his subsistence and other cases of a similar nature, and to provide in certain cases for the payment to the landlord of a premium as compensation for commutation.

7. The difficulties in the application of the law arising from the existence of several co-sharers, concerned in one tenancy either as landlords or tenants, have necessitated a simplification of procedure. The Bill, therefore, on the one hand provides for the appointment of a common agent to act on behalf of joint or co-sharer landlords; and on the other makes co-sharer tenants jointly and severally liable for the rent of the holding, and provides that a decree for arrears of rent obtained against co-tenants who, in accordance with the definition in the Bill, represent the entire body of the co-sharers, shall be valid against all the co-tenants. Further, a co-sharer landlord is allowed to bring a suit for the arrears of rent due to him alone, making the other landlords parties as defendants, and obtain a rent-decree valid against the entire tenancy.

8. When section 158A was introduced into the Bengal Tenancy Act in 1907, it was expected that a general system of maintenance of the record-of-rights would be introduced by Government, and it was intended that the privilege of the certificate

procedure for the realization of rents should be granted only if the records were maintained by Government. As such a system has not been generally introduced, it is proposed to remove this compulsory condition, but in its place to impose on Government the obligation of considering how the landlord himself maintains his record. It is also proposed to make recoverable by the same procedure the fees payable to landlords on the transfer of tenures and holdings and the dues mentioned in section 193 of the Act.

9. Of the other changes proposed in the Bill, the more important are the simplification of the procedure in connection with the transfer of permanent tenures, the repeal of Chapter XII of the Act, some simplification of judicial procedure and the reconciliation of differences between the Bengal Tenancy (Amendment) Act, 1907, and the Eastern Bengal and Assam Tenancy (Amendment) Act, 1908. These and other minor and consequential changes are explained in detail in the Notes on Clauses.

NOTES ON CLAUSES.

Clause 3.—It is proposed to remove the references to areas outside the province and to simplify section 1 by stating definitely the areas to which the Act does not apply instead of referring to the Scheduled Districts Act.

In sub-clause (*ii*) reference is made to the present Calcutta Municipal Act, 1923, instead of to the Act of 1899. It is thought desirable that the Bengal Tenancy Act shall apply to the areas mentioned in that sub-clause until a special notification is made excluding those areas from the operation of that Act.

Clause 4.—The reference to Orissa in section 2 has been omitted.

Clause 5.—(*a*) The words " or deliverable " are redundant.

(*b*) In view of the general principle adopted regarding the occupancy rights of under-raiyats, the definition of holding has been extended to include that of an under-raiyat.

(*c*) This sub-clause introduces a definition of homestead in order to make it clear that the provisions of section 182 as amended by clause 110 do not apply to shops, hotels and similar premises.

(*d*) Of the alternative definitions of village in the Western Bengal and Eastern Bengal Acts, the Eastern Bengal form has been adopted with necessary modifications.

(*e*) This sub-clause defines the agricultural year as the Bengali year. This year is in force throughout Bengal, except in a part of Midnapore and in Chittagong. It is desirable to make the year uniform throughout Bengal for the purposes of the Act.

It is proposed in clause 118 to rearrange the definitions in section 3 in alphabetical order.

Clause 6.—Section 4 has been recast so as to include the two classes of occupancy and non-occupancy under-raiyats which it is proposed to recognize. Tenure-holders have also been divided into two classes, permanent and temporary.

Clause 7.—Section 5 has been modified in view of the introduction of a definite class of under-raiyats with occupancy rights.

Clause 8.—This addition has been made to section 9, in order to remove any misapprehension by the Courts as to the application of the section when there have been gradual enhancements.

Clause 9.—The object of the proposed sections 12 to 15 is to simplify the cumbrous procedure of the present sections of the Act in respect of the realization of landlords' fees for the transfer of permanent tenures. The lines adopted are those proposed later for the realization of the same fees for the transfer of occupancy rights.

Briefly, the proposed procedure will leave the actual payment of the landlord's fee a matter between the parties concerned, the amount being payable and recoverable as rent either by suit or under the certificate procedure, which privilege it is proposed to extend for the realization of these fees. At the time of the registration of the document of transfer, a notice must be filed with the registering officer for service on the landlord giving the particulars of the transfer. The result is that the Collector will have no responsibilities in the matter. For the same reason, in the case of succession, the notice will be served through the Civil Courts instead of through the Collector, and an additional penalty is provided for failure to give notice of succession within six months.

Provision is made for the service of the notice on, and the payment of the fee to, the common agent, who will be appointed under clause 60.

Clause 10.—This clause is consequential on the amendments made by clauses 11 and 85.

Clause 11.—This clause makes it clear that the transferee of a permanent tenure includes his successors in interest.

Clause 12.—Section 18 has been amended so as to make it clear that a raiyat holding at a rent or rate of rent fixed in perpetuity can acquire the status of a settled raiyat of a village and that certain sections of the Act shall not apply to such a raiyat.

Clauses 13, 14 and 15.—These clauses reconcile the verbal differences between the Western Bengal Amendment Act of 1907 and the Eastern Bengal Amendment Act of 1908 in Chapter IVA and provide for the forfeiture of all landlord's fees deposited before the passing of the new Act and not claimed within five years from the date of the deposit.

Clause 16.—It is proposed to extend the Western Bengal section 19 to Eastern Bengal.

A formal amendment is made in the reference to the Calcutta Municipal Act in sub-section (*2*) of section 19.

Clause 17.—The principle underlying section 22 of the Act is that it is undesirable to encourage the acquisition of raiyati rights by persons belonging to the class of landlords and it is carried into effect so far as their own tenures or estates are concerned. Neither forms, however, of the section make the position definite either of an immediate co-sharer landlord, who purchases an occupancy holding in his own estate or tenancy, or of an under-raiyat on an occupancy holding, which comes into the possession of a landlord. Having regard therefore to the principle underlying the section, it is proposed in the new section 22 in the case of the co-sharer landlord to insert a provision for the

conversion of the raiyati interest purchased by him into a permanent tenure, and in the case of the under-raiyat to make it clear that he becomes a raiyat. In both cases necessary provisions and modifications are proposed regarding rent. It is also proposed to safeguard the rights of third parties by a definite provision that an encumbrance on the holding shall continue to be attached not to the holding but to the interest of the landlord as proprietor or tenure-holder as the case may be.

The provision in the proposed sub-section (*6*) (*ii*) is necessary in view of the drafting of the remaining sections. Without it no right of pre-emption under the proposed section 26G could accrue.

Certain consequential amendments regarding the merger of the occupancy rights of under-raiyats are also proposed.

These proposals have rendered a redraft of the major part of the section necessary, but no essential change of principle has been introduced.

It is proposed in sub-section (7) of the new section 22 to substitute the words "a right to hold as a raiyat any land" for the words "right of occupancy in any land" in the present sub-section (*4*) of section 22 in order to meet certain rulings which seem to imply that a temporary tenure-holder, though he cannot acquire an occupancy right in any land which he has purchased, can hold it as a non-occupancy raiyat and becomes an occupancy raiyat as soon as the temporary tenure expires.

It is further proposed to substitute the term "temporary tenure-holder" for the term "ijaradar".

Clause 18.—The provision in section 23 relating to the cutting of trees has been omitted and dealt with in the following clause.

Clause 19.—The rights of raiyats regarding trees are not clear and they are practically left to custom which is variable in different parts of the province. It is proposed to introduce a clearer definition of these rights instead of leaving them to custom and to give the raiyat complete rights in trees on his holding except in respect of some valuable trees mentioned in the section, for which the raiyat will have to pay the landlord a fee equivalent to one-fourth of the value of the timber of the tree felled or disposed of.

Clause 20.—This clause deals with the transferability of occupancy holdings. Occupancy rights are at present freely transferred without reference to and without the knowledge of the landlord. In most cases, the transferee secures recognition by going to the landlord either immediately after the sale or at some later period and paying him a *salami* and the arrears of rent due from the old tenant. In some cases the landlord is unwilling for some reason or other to accept the transferee as his tenant and the result is litigation on a question to which no positive law can be applied. The remedy proposed is to recognize the existing widespread practice of transfer, and to admit transferability of occupancy holdings subject to the safeguards necessary to protect the interests of the landlords and to secure the general welfare of the agricultural community. Briefly, the proposal is that all transfers by private sale shall be made by registered instrument and that the registering officer shall immediately cause a notice of the transfer to be served upon the landlord. The transferee is required within two months to tender payment to the landlord of the transfer fee, which may be deposited in Court on conditions applicable to the deposit of rent and will be recoverable as an arrear of rent either by rent suit or under the certificate procedure. In order to protect the landlord against an undesirable transferee it is proposed to give him the right to have the holding transferred to himself on payment to the transferee of the consideration money with 10 per cent. as compensation, together with any sum which the transferee might have paid in respect of rent on landlord's fee. Analogous provisions, with necessary modifications, have been made to meet the case of transfer by will or bequest or sale in execution of a decree. The transfer fee will not be payable in the case of a transfer by bequest in favour of a natural heir or of a transfer to a co-sharer in the holding. The *salami* has been fixed at 25 per cent. of the consideration money because from the enquiries made it appears to be the rate usually levied at present.

Clause 21.—It is proposed to amend section 36 on the lines proposed in clause 8.

Clause 22.—It is reasonable that where a raiyat has had his rent settled when certain arrangements in respect of irrigation or maintenance of embankments were in force that he should receive a reduction of his rent so long as the landlord fails to carry out his obligations in this respect. It is proposed to amend section 38 accordingly.

Clause 23.—The present section 40 is not generally workable in this province. In order to discourage indifferent cultivation and to prevent the cultivator from being reduced to the status of a labourer, it is thought desirable to modify the section in such a way that it may be found workable. To prevent hardship to the landlord who is dependent upon produce rent for the subsistence of himself and his household it has been provided that there shall be no commutation in his case. It is also thought desirable to compensate the landlord by paying him a premium in case of disparity between the average value of the rent in kind and the money rent into which it can be equitably converted.

Clause 24.—It is reasonable that a non-occupancy raiyat should be liable to ejectment on the expiry of his lease when he has been admitted to occupation under a written lease, whether the lease has been registered or not, and that he should be given six months' notice to quit when holding otherwise than under a written lease. It is proposed to amend clause (*c*) of section 44 and to add a new clause (*cc*) accordingly.

Clause 25.—This amendment of section 46 is merely verbal.

Clauses 26 to 28.—It is not desirable that occupancy holdings should be bought up by money-lenders and non-agriculturists and settled on a rack rent with cultivating tenants who would be mere tenants-at-will, although the occupancy right was really intended for these cultivating tenants. It is proposed to give a limited occupancy right to all under-raiyats of whatever grade as against their own immediate landlords to avoid this. In certain cases, however, this provision would operate harshly on persons who find it necessary to sublet their lands temporarily. It is therefore proposed to amend section 48 so as to protect such persons.

Clause 26 enumerates the classes of under-raiyats on whom it is proposed that occupancy rights should not be conferred.

Clause 27 explains the nature of the occupancy right which it is proposed to confer upon under-raiyats other than those who are excepted under clause 26. Briefly, the major portion of Chapter V is made applicable to occupancy under-raiyats by virtue of this clause, but, in cases where the other sections of the Act are applicable to occupancy raiyats, their extension to occupancy under-raiyats is specifically mentioned in the other clauses of the Bill.

Clause 28.—This clause amends section 49 so as to define the restrictions on the ejectment of non-occupancy under-raiyats.

Clause 29.—In order to meet certain doubts which have arisen, it is proposed to amplify sub-section (*6*) of section 52, in order to make it clear that an entry of area in a document may be presumed to have been ascertained on measurement if it is shown that a practice of settlement after measurement was in use at or about the date on which such document was drawn up.

Clause 30.—It is proposed to amplify the provisions of section 54 relating to the remittance of rent by money-order, in order to remove certain practical difficulties which discourage the tenants from making use of this method of payment and make the landlords reluctant to accept rents tendered in this way.

Clause 31.—It is desirable that the period during which action may be taken by the Collector under sub-section (*4*) of section 58 against landlords for withholding receipts and statements of accounts should be extended from one to two years.

Sub-clause (*b*) is added to make it clear what will not be a reasonable excuse on the part of the landlord for not granting a receipt or statement of account or for not retaining a counterfoil fully filled up.

Clause 32.—A slight modification has been made in section 61, in order to remove certain difficulties raised by the Courts.

Clauses 33 and 34.—Changes have been made in sections 63 and 64, in order to make it compulsory on the Courts in certain cases to send rents deposited under sections 61 (*a*) and 61 (*b*) by money-order to the landlord. The drafting of section 63 has been amended.

Clause 35.—In order to prevent landlords from harassing tenants by means of suits for rent which the latter have already tendered by money-order or deposited in the Civil Court, it is proposed by the new section 64A to preclude the landlord from recovering in such suits damages, interest or costs, and also to make him liable for damages.

Clause 36.—This amendment of section 65 is consequential on the proposal to give occupancy rights to certain classes of under-raiyats.

Clause 37.—The change here made in section 66 (*1*) is consequential on the proposal to adopt the Bengali year for the whole province [*vide* clause 5 (*e*)]. The period in sub-section (*2*) has been extended to 30 days.

Clause 38.—It is proposed by an amendment of section 67 to charge interest on arrears between the date of the institution of the suit and the date of realization at the same rate as is now prescribed in section 67 for the period before the institution of the suit. On the whole it seems advisable to make the rate uniform for both the periods, and this should tend to discourage the defendants from protracting the proceedings.

Clause 39.—It is reasonable, owing to the circumstances in which damages are awarded, that such damages should not be less than the interest which would otherwise be given under section 67. The proposed amendment of section 68 gives effect to this proposal.

Clause 40.—The change made by this clause is consequential on the proposed repeal of the chapter on distraint, Chapter XII (*see* clause 85).

Clause 41.—In view of the detailed proposals regarding the transferability of occupancy rights, it is no longer necessary to retain section 73.

Clause 42.—This change in section 74 is consequential on the proposed change made in section 179, which will make a contract for the payment of an *abwab* illegal in the case of permanent *mukarari* tenures, but it is not proposed to interfere with existing contracts regarding such tenures.

Clauses 43-49.—These clauses provide that an under-raiyat shall have the same privileges and liabilities as regards improvements as a raiyat. It is proposed to enact that a fee for the construction of any legal improvement is an *abwab*. The interpretation of the word "suitable" before dwelling-house in sections 76 (*f*) and 79 is doubtful, and

the word has therefore been omitted by clause 43 in both cases. Clause 48 introduces certain consequential changes in sections 82, 83, 86 and 87, due to the new provisions relating to under-raiyats.

Clause 50.—At present it is necessary in consequence of section 85 for a landlord to serve a notice of annulment under section 167 on under-raiyats holding under a registered lease, in cases where the holding of a superior raiyat is sold in execution of a decree for arrears of rent due from that raiyat. As the interest of an occupancy under-raiyat will not be treated as a protected interest under section 160 (*d*), it is proposed to make it unnecessary in future to serve a notice under section 167 on any under-raiyat, whether holding under a lease or not. The existing rights of under-raiyats holding under leases registered before the commencement of the amending Act are, however, retained.

Clause 51.—It is reasonable that when a tenant takes abatement of rent on account of diluvion, he should cease to have any right in the land subject to the ordinary law of alluvion and diluvion. There has, however, been a decision to the contrary. It is therefore proposed in the new section 86A to embody the above principle in the law.

Clauses 52 and 53.—Clause 53 gives protection to existing occupancy under-raiyats who have been holding since the 1st January, 1915, in the event of the surrender or abandonment of the holdings of their landlords, if the latter are raiyats, on complying with certain conditions. The date is an arbitrary date, but in view of section 85 (*2*) of the Act it should not exceed nine years before the passing of the amending Act. The present section 87 (*4*) will then apply only to non-occupancy under-raiyats. This has been provided for in clause 52, which also contains certain consequential amendments.

Clause 54.—Of the alternative forms of section 88 in the Western Bengal and Eastern Bengal Tenancy Acts, it is proposed to adopt the Western Bengal form.

Clause 55.—The first part of this clause (new section 88A) makes it clear that no co-sharer landlord can enter into a contract with a tenant to the prejudice of the other co-sharer landlords. The second part (new section 88B) safeguards co-sharer tenants against any sub-letting by other co-sharer tenants of any of the lands in a manner which would render them liable to ejectment or a penalty, by allowing the former to sue the sub-tenant for ejectment.

Clause 56.—At present it is necessary, when action is taken under section 93, to appoint a common manager for the whole of the estate or tenure concerned, although a dispute may exist in only a small portion. Under the section as amended by this clause it will be possible to appoint the common manager only for those portions of the estate or tenure which are affected by the dispute.

Provision is also made for enabling the tenants to apply for the appointment of a common manager in cases where, owing to the existence of a large number of small co-sharers in the estate or tenure, the tenants are put to inconvenience and harassment in the payment of their rent. It is proposed, however, later under clause 60 to allow the landlords to avoid the appointment of a common manager by the appointment of a common agent.

Clauses 57 and 59.—It is proposed that in cases where a District Judge orders the appointment of a common manager he should be appointed and controlled by the Collector instead of by the District Judge.

In section 98 (*7*) it is proposed to give the common manager power to apply for the extension of section 158A to the estate or tenure.

Clause 58—Makes an amendment consequential on the amendment made by clause 57.

Clause 60.—This clause introduces a common agent appointed by co-sharer landlords where they agree, or by the Collector on their behalf when they do not, for the receipt of notices of transfer and the realization of transfer fees on account of tenures and holdings, and where the landlords so desire, for the collection of rent also. The proposal is intended to simplify the procedure both for the payment of transfer fees and rents by tenants and their collection by landlords, and it is practically essential for the proper working of the proposed procedure regarding the transferability of occupancy holdings.

Clause 61.—As it is proposed that the Collector should control the work of common managers, the rules defining their powers and duties should be made by the Board of Revenue instead of by the High Court. It is proposed to amend section 100 accordingly.

Clause 62.—It is considered necessary under section 101 to prepare a record-of-rights of non-agricultural lands also, as it is inconvenient to leave out some lands when a record-of-rights is prepared of a village. All the provisions of the Act cannot, however, apply to such lands and the provisions of certain sections have been made inapplicable to those lands. The change in sub-clause (*iii*) is consequential on the change made in regard to the appointment of common managers.

Clause 63.—The change made in clause (*b*) of section 102 is consequential on the other changes made in connection with occupancy under-raiyats. It is necessary that any rights of pasturage, forest rights and rights over fisheries and the like should be recorded in the record-of-rights prepared. This is provided in sub-clause (*ii*).

Sub-clause (*iii*) is consequential on the changes made by sub-clauses (*i*) and (*ii*) in section 101.

Clauses 64 and 65.—The Eastern Bengal and Assam sections 103B and 104H have been adopted, as the wording is more precise. There is no material difference between the Western Bengal and Eastern Bengal sections.

Clause 66.—The Eastern Bengal and Assam section 105 has again been adopted here with the modification that it is proposed to allow four months instead of two months from the date of the certificate of the final publication for the filing of applications for the settlement of fair rents.

Clause 67.—An addition has been made to section 105A, which will enable an issue to be framed regarding the rent payable at the time of the publication of the record-of-rights.

Clause 68.—Ordinarily, it is desirable that each party in proceedings under section 105 should bear their own costs, and it is proposed to add a provision to this effect. It is also desirable to provide for the levy of court-fees when an issue is raised under section 105A, which, but for those proceedings, would have to be raised under section 106.

Clause 69.—The Eastern Bengal and Assam section 106 has been adopted with the modification that the time for filing suits has been extended to four months from the date of the certificate of the final publication.

Clause 70—Makes certain changes consequential on renumbering (*vide* clause 74).

Clause 71.—A verbal change has been made in sections 108 and 108A,—now section 115B,—in order to make the sections more explicit.

Clause 72.—The proposed section 108A has been removed to the end of Chapter X and renumbered 115B, in order to make it clear that it applies to proceedings under Part II of the chapter. The time within which *bonâ fide* mistakes in the record may be corrected has been extended from one year to two years.

Clause 73.—A proviso has been added to section 109 so as to allow all issues raised in proceedings under sections 105, 105A and 106, which are not finally adjudicated on by the Revenue-officers, being subsequently tried by the Civil Courts.

Clause 74.—It is proposed to insert a reference to section 115B (old number 108A) in section 109A, as the omission appears to be an error of drafting. Inasmuch as the powers of revision allowed by sections 108 and 115B are discretionary, it is also proposed to enact that there shall be no appeal against an order refusing to exercise these powers. As section 109A does not apply only to cases where a settlement of land revenue has not been made, it is proposed to remove it to the end of the chapter and renumber it as section 115C. No appeal, however, should lie to the Special Judge in proceedings for the settlement of land revenue, that is to say, under Part II of Chapter X.

Clause 75.—The Eastern Bengal and Assam section 109B has been adopted.

Clause 76.—It is proposed to make section 109C, which is in force in Western Bengal only, applicable to Eastern Bengal also, with the modification that it will no longer be necessary for an officer to be specially empowered by the Local Government for the purposes of this section.

Clause 77.—This clause brings together the various sections in Chapter X relating to notes of decisions in the finally published record-of-rights and co-ordinates the Western Bengal and Eastern Bengal law on the subject.

Clause 78.—The change made here corrects an error of drafting in section 110.

Clause 79.—The Eastern Bengal and Assam section 111B is preferred, because Revenue-officers should clearly be precluded from trying issues under section 105A, no less than issues under section 106, which are *sub judice* in the Civil Court.

The substitution of four months for three months is consequential on the amendment of section 106.

Clause 80.—Of the alternative forms of the Western Bengal and Eastern Bengal section 112, the Eastern Bengal form has been adopted. Experience, however, shows that the provisions of this section can be defeated by the exaction of excessive rents pending the currency of the proceedings. It is therefore proposed that such rents shall not be recoverable for the period of the proceedings.

Clause 81.—This amendment of section 113 is consequential on the changes proposed in regard to occupancy under-raiyats.

Clause 82.—The Eastern Bengal and Assam section 115A has been adopted.

Clause 83.—It was resolved at a conference of District Boards, held in 1919, that tenants of any roadside lands should not be allowed to acquire occupancy rights in them. This clause therefore provides for the extension of section 115 to such and similar lands. The reference to Bihar has been omitted.

Clause 84—Corrects an error in spelling.

Clause 85.—It is proposed to repeal the whole of Chapter XII on distraint, as it is not necessary in the province as at present constituted, where it is rarely used, and then probably only as a means of oppression.

Clause 86.—It is proposed to amend section 144, so as to enable landlords, subject to necessary safeguards, to bring one suit against the same tenant on account of the arrears of rent of more than one tenancy. It is also proposed to make it clear that a rent-suit can only be brought in a Court within the jurisdiction of which the lands of the tenure or holding are situate.

Sub-clause (*b*) is intended to give additional facilities to landlords to recover rent from tenants.

Clause 87.—In order to meet the difficulties which landlords experience in trying to ascertain all the co-sharers in a tenure or holding before a rent-suit is brought with the possibility that the sale of the tenure or holding in execution of the decree obtained in that suit may subsequently be held to be invalid as a rent sale under Chapter XIV on the ground that an absentee co-sharer has been omitted from the suit, it is proposed to enact that each co-sharer tenant shall be jointly and severally liable for the rent of the tenancy, and the sale will be valid as a rent sale if the defendants in the suit represented the entire body of co-sharer tenants in the tenure or holding. It is also made clear which of the co-sharer tenants will be deemed to represent the entire body of co-sharer tenants. Provision is also made to join those co-tenants who apply to be made co-defendants at the right moment. This clause also gives additional facilities to the landlords for the recovery of rents of tenancies held by a large number of co-sharer tenants.

Clause 88.—It is proposed to enact that section 147 does not apply to suits for the recovery of landlords' fees on transfers of tenancies. Transfers may occur at any time and therefore this section should not be made applicable.

Clause 89.—Of the two alternative Eastern Bengal and Western Bengal forms of section 147A, it is proposed to retain the Eastern Bengal form with, however, the addition of sub-section (*4*) from the Western Bengal section, so as to safeguard the rights of third parties. The drafting has been amended so as to bring it into conformity with the Code of Civil Procedure.

Clause 90.—The objects of the various changes proposed by this clause in section 148 are to co-ordinate the Eastern Bengal and Western Bengal forms of the law and to cheapen the procedure in rent-suits. The principal changes may be summarized as follows:—

(1) In areas where a record-of-rights has been prepared it is sufficient for the identification of the lands in suit, if the khatian number of the tenancy is given, and its area and rental.

(2) The Court may inform the natural guardian of a minor defendant that he will be treated as the guardian, and, unless he appears and objects within 14 days, the Court may proceed with the suit on the assumption that the minor is properly represented.

(3) If the Court accepts or refuses a written statement, it must record its reasons.

(4) One affidavit may be used in several cases tried in the same way.

(5) Any party who files collection papers or extracts from records-of-rights as evidence may take them back for use in other cases, with the permission of the Court, and in that case copies of the relevant entries will be made and certified by the Court without charge and kept with the record of the case.

Clause 91—Proposes a new section for section 148A to meet the difficulties of co-sharer landlords in realising the rents through the Court. Briefly, it is proposed that a co-sharer landlord should be allowed to bring a suit for arrears of rent due to him alone, making the other co-sharer landlords parties defendants. These co-sharer landlords would then have an opportunity of coming forward as plaintiffs, but if they do not, they will be debarred from getting any decree for arrears of rent for the period in suit.

Clause 92.—It is proposed by an amendment of section 153 to empower District Judges, Additional Judges and Subordinate Judges to exercise final jurisdiction in cases where the amount of rent claimed, including interest and damages, does not exceed Rs. 200 instead of Rs. 100 as at present, and specially to empower judicial officers below the rank of Subordinate Judges to exercise final jurisdiction in cases where the amount of rent claimed, including interest and damages, does not exceed Rs. 100 instead of Rs. 50 as at present.

It has also been made clear that no issue relating to the title to land in a rent-suit from which no appeal lies shall be considered *res judicata* in a subsequent title-suit.

Clause 93.—This clause amends section 156 so as to make the rules which apply in the case of a raiyat ejected from his holding applicable in the case of an under-raiyat similarly ejected.

Clause 94.—The changes proposed in section 158 are consequential on the proposal to recognize occupancy under-raiyats.

Clause 95.—When section 158A was introduced into the Bengal Tenancy Act in 1907, it was expected that a general system of maintenance of the record-of-rights would be introduced by Government, and it was intended that the privilege of the certificate procedure for the realization of rents should be granted to a landlord only if the record-of-rights was maintained by Government. As the idea of general maintenance has now

been abandoned, it is proposed to remove this compulsory condition, but in its place to impose on Government the obligation of considering how the landlord himself maintains his record.

Clause 96.—It is desirable that the certificate procedure shall apply to the recovery of the amounts payable in respect of any rights of pasturage, forest rights, rights over fisheries and the like when the provisions of sub-sections (*1*) to (*3*) of section 158A have been complied with.

Clause 97.—The change proposed in section 158B is verbal, consequent upon the proposed alteration of section 148A in clause 91.

Clause 98.—This clause amends section 159 so as to make it clear that the title of a purchaser of a tenure or holding in a sale in execution of a rent-decree takes effect from the date of the confirmation of the sale in conformity with section 169 (*1*) (*c*).

Clause 99.—It is proposed to make it clear that the right of a raiyat at fixed rates having a right of occupancy in the lands of a holding to continue to hold at such rates is not a protected interest and to amend section 160, in order to prevent a purchaser being defrauded by the outgoing tenure-holder or proprietor giving *mukarari* rights on unduly small rents on payment of a premium, by enacting that such rents are not protected.

Clause 100.—The use of a single form for the order of attachment and the proclamation of sale of property is proposed, in order to simplify the procedure for the execution of rent-decrees. It is also proposed, in lieu of the present law, which prescribes a large number of methods of publication of this notice, to insert in section 163 three essential methods of advertising the property for sale.

Clause 101.—This proposed amendment of section 166 is consequential upon the proposal in clause 12 to allow a raiyat at fixed rates to acquire the status of a settled raiyat.

Clause 102.—The proposed amendment of section 167 regarding the date is consequential upon the proposed amendment in section 159 and in conformity with the present section 169 (*1*) (*c*). It is proposed to give all subdivisional officers powers under section 167 (*1*) and (*3*).

Clause 103.—The proposed amendments of section 169 are consequential upon those proposed in section 148A in clause 91.

Clause 104.—Of the alternative section 170 now in force in Western Bengal and Eastern Bengal, respectively, the Eastern Bengal form has been adopted, in order to avoid possible hardship to persons interested in the tenancy who have not been made parties to the suit. The change in sub-section (*4*) is consequential on the amendment of section 174.

Clause 105.—Under the old section 174 the judgment-debtor alone can deposit the decretal amount but not any other person whose interests are affected by the sale. These other persons have to apply under the Code of Civil Procedure. This section is intended to cover the cases of all these persons also.

Sub-clause (*3*) is intended to prevent false and vexatious applications for setting aside sales.

Clause 106.—The proposed section 174A is necessary owing to the changes made in clause 105 as to the inapplicability of rules 89 and 90 in Order XXI in Schedule I to the Code of Civil Procedure, 1908.

Clause 107.—This clause brings up to date the reference to the Indian Registration Act in section 175.

Clause 108.—The changes proposed in section 178 are mainly consequential upon the general principles adopted regarding occupancy rights of under-raiyats and transferability. In particular, it is proposed to prevent any contract, whether made before or after the passing of the Bengal Tenancy Act, from taking away or limiting the occupancy right of an under-raiyat as against his immediate landlord or the right of transferability of an occupancy raiyat or under-raiyat, or their rights regarding trees.

It is also proposed to limit the right of a landlord to recover from a raiyat or under-raiyat as rent produce in excess of half the gross produce of the holding.

Clause 109.—Under the present interpretation of section 179, conditions for *abwabs* [which are illegal under section 74 or section 77 (*3*)] or for interest on arrears of rent in excess of that allowed by section 67 can be embodied in permanent *mukarari* leases. It is proposed to make such conditions in future leases of this description invalid.

Clause 110.—The existing provision regarding homesteads in section 182 leaves the law in a state of great doubt and uncertainty. It is proposed, therefore, to provide generally that the homestead rights of a raiyat or under-raiyat shall ordinarily be regulated by the provisions of the Act, but that if a person is not originally a raiyat or under-raiyat, he shall not acquire any statutory rights in his dwelling-house, etc., by subsequently acquiring a right to hold land as a raiyat or under-raiyat.

Clause 111.—It is proposed to omit both illustrations to section 183 in view of the general principles adopted regarding transferability and the rights of under-raiyats.

Clause 112.—The Indian Limitation (Amendment) Act, 1922, X of 1922, appears to have made some changes in the law of limitation as regards cases under the Bengal Tenancy Act. It is proposed, however, to retain the substance of the law as at present in the Bengal Tenancy Act by the necessary changes in section 185.

Clause 113.—It is proposed to extend the same principle underlying the amendment proposed in section 148A to a number of cases at present governed by section 188 of the Act, and it is made clear which suits are to be brought and which applications are to be made by all the landlords together or by an agent authorized to act on behalf of all of them when they are joint or co-sharer landlords and in which cases any of the joint or co-sharer landlords may obtain the relief sought for if he makes the other co-sharer landlords parties to the suit or proceeding.

Clause 114.—Of the two alternative forms of section 188A, the Eastern Bengal form has been adopted.

Clause 115.—The Patni Taluk Regulation deals with *khudkast* or resident raiyats, and not with occupancy raiyats. All occupancy raiyats are not therefore protected in the event of the patni taluk being sold up for arrears of rent. It is proposed to remedy this by an amendment of section 195.

Clause 116.—This clause makes formal drafting amendments in regard to certain references in the Act.

Clause 117.—This clause substitutes references to the present Code of Civil Procedure for the references to the previous Code contained in the present Act.

Clause 118.—This clause makes certain formal rearrangements in sections 3 and 148.

Clause 119.—This amendment is consequential on the proposed amendments of section 44 in clause 24.

Clause 120.—In view of the hardship that may be caused to tenants holding on produce rents if they are called upon to pay up the rent for three years at one time, it is proposed to limit the period of limitation for rent-suits in such cases to one year. An error in drafting in the omission of the word "tenure" has also been corrected.

Clause 121.—In view of the proposal to make landlords' fees on transfer recoverable as rent, it is proposed in this clause to apply the period of limitation in the case of rent-suits to such fees from the dates given in the clause.

Clause 122.—Sub clause (*1*) introduces a necessary change in the date of the Indian Limitation Act.

By sub-clause (*2*) it is proposed to enact that the time spent on the execution of a decree for rent on a sale which is subsequently set aside on application shall be excluded from the calculation of the period of limitation for the execution of such a decree.

To—The Secretary to the Government of Bengal, Local Self-Government Department (Municipal Branch).

I have the honour to submit herewith the report of the Chief Officer of the Calcutta Fire Brigade for the financial year ending 31st March 1925.

The Chief Officer's report gives the full details in connection with the working of the Brigade.

No. F. B. 789, dated Calcutta, the 15th September 1925.

From—CAPTAIN BERNARD A. WESTBROOK, Chief Officer, Fire Brigade, Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government Department (Municipal Branch).

(*Through* C. A. TEGART, ESQ., C.I.E., M.V.O., *Commissioner of Police, Calcutta.*)

I have the honour to submit the following report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1925.

The outstanding feature of the year has been the exceptionally small number of serious fires as compared with the previous year; consequently the fire loss is proportionately smaller. One of the reasons for this is undoubtedly the small quantity of jute which has been stored in the warehouses in this area during the year under review.

2. **Financial Statement.**—The statement of receipts and expenditure and payments made by the municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse Act, I of 1893, is given in Appendix I.

3. **Fires, etc.**—The total number of calls for fires or supposed fires during the year was 559, being a decrease of 84 as compared with the previous year, and an increase of 142 over the average for the past fourteen years.

They are classified as under :—

Fires	440
False alarms, wilful	63
False alarms, with good intent, accidental or due to electrical defects.	47
False alarms caused by lightning on the Fire Alarm circuit	4
Calls for special service	5
Total ...	559

On one hundred and thirteen days 1 fire or supposed fire occurred	113
On eighty-one days 2 fires or supposed fires occurred	162
On forty „ 3 „ „ „ „ „ ...	120
On twenty-seven „ 4 „ „ „ „ „ ...	108
On three „ 5 „ „ „ „ „ ...	15
On two „ 6 „ „ „ „ „ ...	12
On one day 9 „ „ „ „ „ ...	9
On two days 10 „ „ „ „ „ ...	20
Total ...	553

The actual number of calls received during the year was 773, which includes instances where more than one call were received for the same fire.

These calls were transmitted as follows :—

Three hundred and fourteen calls by street fire-alarms, 398 calls from private telephones, 25 calls from police and direct telephone lines, 21 calls by messengers giving information at Fire Brigade stations, and 15 calls from look-out men at Fire Brigade stations.

Twenty-five fires occurred on premises licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893.

In 203 cases fires were extinguished by individual firemen with buckets, etc., or by occupants before the arrival of the Brigade, in 87 cases by one motor fire-engine, in 31 cases by one line of hose from hydrants, in 13 cases by two motor fire-engines, in 23 cases by first-aid appliances, in one case by 3 motor fire-engines, in 5 cases by one motor fire-engine and fire-float, in 2 cases by fire-float, in 2 cases by two motor fire-engines and fire-float, in 3 cases by ship's appliances and hydrants, in 2 cases by first-aid appliances and hydrants, in 3 cases by Mill appliances, in 2 cases by one motor fire-engine and hydrants, in 23 cases sand was used, in 27 cases of electric fires switches were cut out.

4. **Fire loss.**—The total damage caused by fire and water during the year has been estimated at Rs. 3,10,308, being a decrease of Rs. 9,57,571 as compared with last year. The average damage per fire is Rs. 556 as compared with an average of Rs. 4,281 per fire for the past fourteen years.

The loss per call is classified as follows :—

298	calls	under Rs.	100.		
81	,,	from Rs.	100	to Rs.	1,000.
37	,,	,, Rs.	1,000	to Rs.	5,000.
7	,,	,, Rs.	5,000	to Rs.	20,000.
6	,,	,, Rs.	20,000	to Rs.	1,00,000.

5. The following summaries are given in the appendices as under :—

Districts in which fires or supposed fires occurred	...	II
Damage caused by fire, etc., in various districts	...	III
Short reports of fires of Rs. 20,000 damage and over	...	IV
Number of times each fire station turned out	...	V
Causes of fires, buildings, etc., affected	...	VI

6. **Appliances.**—The following appliances are in commission by the Calcutta Fire Brigade :—

Eleven motor fire-engines, 1 motor trailer pump, 1 motor 85-feet mechanically operated turn-table ladder, 1 motor emergency tender, 2 motor lorries, 2 motor cars, 3 steam fire-engines, 1 60-feet horse-drawn turn-table ladder converted for towing behind motors, 7 fire-escapes and telescopic ladders, 26 hook ladders, 55 scaling ladders, 10 smoke helmets, 3 horses, and 54,825 feet of 2½-inches unlined canvas hose.

They are distributed as follows :—

Headquarters.—Five motor fire-engines, 1 motor trailer pump, one motor emergency tender with monitor and breakdown appliances, 1 motor lorry, 2 motor cars, 1 fire-escape and 2 telescopic ladders, 16 hook ladders, 28 scaling ladders, 10 smoke helmets, and 32,700 feet of 2½-inches unlined canvas hose.

Central Avenue.—Four motor fire-engines, 185 feet mechanically driven turn-table ladder, 1 60-feet horse-drawn turn-table ladder converted for towing behind motors, 1 fire-escape and two telescopic ladders, 6 hook ladders, 18 scaling ladders and 10,425 feet 2½-inches unlined canvas hose.

Chitpore.—One motor fire-engine, 1 steam fire-engine, 2 hook ladders, 2 horses, and 5,550 feet of 2½-inches unlined canvas hose.

Howrah.—One motor fire-engine, 1 steam fire-engine, 1 telescopic ladder, 2 hook ladders, 9 scaling ladders, 1 horse, and 4,800 feet of 2½-inches unlined canvas hose.

Garden Reach.—One steam fire-engine and 1,350 feet of 2½-inches unlined canvas hose.

It is estimated that motor appliances travelled 10,365 miles during the year in responding to and returning from calls.

One steam fire-engine has been disposed of as unfit for further service, and one steam fire-engine has been condemned and is for disposal.

One new motor fire-engine with turbine pump of 500 gallons per minute capacity, together with first-aid telescopic ladder, etc., has been purchased and placed in commission.

7. **Fire stations.**—Appendix V gives the number of times each fire station has been turned out in response to fire calls, together with monthly statements.

I regret to state that the Fire Brigade headquarters is still located in rented quarters which are not convenient and have not sufficient accommodation for the work that has to be carried on there, which includes workshops, offices, together with five fire-engines on duty. Further, at this station there is no yard for drill or training men.

As the rent paid for this station is high it is a large tax on the Fire Brigade fund, and it is hoped that a suitable site will be allotted and suitable headquarters built at no far distant date. Undoubtedly by this means considerable economy could be effected.

8. **Staff.**—The strength of the Fire Brigade was 225 and the conduct and discipline has been good.

9. **Fatalities and accidents.**—During the year under review the total number of lives lost was 11, of which 5 were cases of suicide by burning as compared with 53 for the last year, which included 42 fatalities at 8, Syed Sally Lane, on account of the collapse of the Muhammadan Orphanage. First aid was rendered in all the cases by the Fire Brigade, and the injured persons were conveyed to hospital (see Appendix VI).

10. **Horses.**—During the year two horses were sold, leaving three horses at the close of the year, which will be disposed of very shortly.

11. **Water-supply.**—So far as the city of Calcutta is concerned I am pleased to report that a considerable improvement has been made with the water-supply owing to the installation of electrically driven turbine pumps at the Mullick Ghat and Watgunge pumping stations.

Greater supervision is needed in maintaining the hydrants in a good and efficient state of repair, as on numerous occasions considerable difficulty has been experienced with defective hydrants on arrival at fires, which necessitates a loss of valuable time and gives a fire a chance of spreading, even after the arrival of the Brigade.

The Chitpore-Cossipore district of Calcutta, which comprises an immense number of extremely dangerous fire risks, is, I regret to say, exceedingly badly off for water for fire extinguishing purposes. So far no mains are laid in this area, and the Fire Brigade have to rely on obtaining water from ponds, etc. Unfortunately these ponds are gradually being filled up, as land is becoming more and more valuable, and the time is rapidly approaching when the Fire Brigade will be powerless to deal with fires in this locality owing to the lack of provision of water. It is hoped that the matter will be very seriously taken up, and money provided for a scheme, which I understand has already been drafted. It should also be noted that in the hot weather the ponds above referred to are practically empty, and the water supply from the river cannot be utilised by land fire-engines owing to the inaccessibility of approach. Thus, at many fires, before effective operations can be commenced, it is necessary to await the arrival of the fire-float, which takes a considerable time when this vessel has to proceed against a strong tide.

Regarding the municipality of Howrah the same remarks as noted for Cossipore-Chitpore apply, and it is hoped that in order to avoid any extremely serious conflagration the Howrah Municipality will take the question of the water supply in hand at the earliest possible moment.

I may state that for many years similar notes regarding Chitpore-Cossipore and Howrah have been published in the Fire Brigade annual reports, and the attention of the authorities concerned has been repeatedly called to the extremely unsatisfactory state of affairs and the danger of huge fires occurring, but so far practically no steps have been taken to alleviate an extremely serious state of affairs.

12. **Fire-float.**—The fire-float (5,000 gallons per minute capacity) has been extremely useful, and on several occasions has saved serious situations by pumping water from the river to feed land fire-engines.

13. **Street fire-alarms, telephones and electrical communications.**—I am pleased to report that considerable improvement has been effected in the maintenance of the street fire-alarm system, telephones and electrical communications by the Bengal Telephone Corporation, Limited, and the thanks of the department are due to the telephone operators for their attention and ready assistance on all occasions.

14. **Inspection department, theatres and places of public amusement.**—During the year the services of the Inspector of Warehouses attached to the Fire Brigade, who previously inspected the theatres and places of public amusement on behalf of the Calcutta Corporation, have been dispensed with in regard to inspection of the theatres and places of public amusement, which is now carried on entirely by the inspectors appointed by the Corporation.

It is unsatisfactory to note that the existing conditions in regard to enforcing the observance of the by-laws and regulations are very ineffective, and owing to the exceedingly small fines which are imposed for non-observance and breach of by-laws, and the fact that the theatres do not require any special license, it is practically impossible adequately to safeguard the public. The question has been before Government for some time, and it is hoped that full powers will be given to the authorities concerned in the regulation of theatres. Failing this it is possible that a very serious catastrophe may occur at any time in some of the highly inflammable Indian theatres, which are so often overcrowded.

In connection with the Licensed Warehouse and Fire Brigade Act, I of 1893, 6,924 inspections of warehouses have been made during the year; 583 applications for licenses and complaints have been attended to and disposed of; 246 prosecutions were made under section 14 of Act I of 1893, which resulted in 157 persons being fined amounts aggregating in all Rs. 2,282; 41 persons being warned, discharged, withdrawn and acquitted, and 48 cases being filed; no trace being found of the accused.

15. **General.**—The Calcutta Fire Brigade protects the city of Calcutta, and the municipality of Howrah, and may attend fires outside the boundaries of the above (but not exceeding a radius of 6 miles from the central fire station), provided that appliances can be spared, on payment of a prescribed fee, thus covering an area of some 120 square miles

I am pleased to record that the members of the Fire Brigade rendered excellent and strenuous services throughout the year.

16. **Ambulance Department.**—The motor ambulance service has been of great value to the general public and responded to 11,613 calls during the year.

The staff of the department consists of 10 drivers and 20 attendants, with 10 motor ambulances.

The service is financially maintained by Government and the Corporation of Calcutta in the proportion of one-third and two-thirds respectively. The receipts during the year including the contribution from Government amounted to Rs. 14,242. The total expenditure was Rs. 54,343-14-3, the balance of Rs. 40,101-14-3 being met by the Corporation of Calcutta.

4. The following are the conditions of sale. Government reserve to themselves the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset price referred to in condition (*iii*) at any time without such previous notice :—

(*i*) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(*ii*) Every application for the export of opium from India should be accompanied by an "Import certificate" in the form prescribed by the League of Nations and published in the *Calcutta Gazette* of the 20th September 1922, with the Bengal Government notification No. 2449S.R., dated the 16th September 1922.

(*iii*) The opium will be ordinarily offered for sale at an upset price of Rs. 4,500 per chest of uncertified opium and will be sold to the highest bidder above that price except under the circumstances for which provision is made by clause (*xiv*) of these conditions of sale. The bids must advance by Rs. 5 at a time.

(*iv*) The sale shall commence at the hour of 11 A.M. on the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of ; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(*v*) Each lot shall ordinarily contain five chests.

(*vi*) A promissory note for a sum, calculated according to the scale noted below, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by receipts of the Imperial Bank of India or by substitution of other public securities of the Government of India on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday ; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no receipts of the Imperial Bank of India or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under

such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government :—

Deposit.

When the amount bid is less than Rs. 4,800 per chest, Rs. 1,100 per chest.

On bids of Rs. 4,800 and upwards, but less than Rs. 5,200 per chest, Rs. 1,200 per chest.

On bids of Rs. 5,200 and upwards, but less than Rs. 5,600 per chest, Rs. 1,300 per chest.

And so on, Rs. 100 being added to the deposit for every bid, additional, to the extent of Rs. 400.

(*vii*) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as beforementioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(*viii*) The promissory notes taken on the day of sale under the sixth condition if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(*ix*) No tender of money, receipts of the Imperial Bank of India or public securities on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (*vi*) on the fifth day following the day of sale, will be afterwards accepted; provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (*vi*) and No. (*vii*).

(*x*) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the sixth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(*xi*) Purchasers taking out certificates or orders for the delivery of opium, after making full payments as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorising the delivery of single lot or of a different number of lots or chests whether more or less than the number of lots or chests ordinarily required to be included in each certificate or order.

(*xii*) No deposit of public securities under the sixth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(*xiii*) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, receipts of the Imperial Bank of India, or Government securities a sum equal to the amount for which a promissory note would otherwise be taken under the sixth of these conditions.

(*xiv*) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained: and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 4,500 specified in the third of these conditions.

(*xv*) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether ten lots, provided always that there remain a sufficient number of lots of the opium to complete the said ten.

(*xvi*) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal :—

No. 1.—Certificate of the opium advertised for sale.

No. 2.—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured in the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred, on reference to chests, after the sale and delivery of the opium for shipment.

The study, which it shall be the object of the prize to encourage, is the history of the Hindu Smriti Sastra as it existed at and from the time when India came under British rule and how and to what extent it has been altered under British influence, regard being had not only to the existing Statutes, Regulations and Acts but also to those which, having been in operation for a time, have now been repealed or become obsolete and regard being also had not only to the existing leading cases but to cases which were considered leading at one time, but have now been overruled, and how and to what extent such alteration has affected Hindu society.

(*ii*) The essay at the discretion of a committee consisting of the Vice-Chancellor for the time being of the University, the President of the Faculty of Law and the Principal of the Government Sanskrit College in Calcutta, may deal with the whole of the Indian Comparative Law as before defined or with part or parts thereof ; but in no case shall an essay be entitled to competition which in any way attacks the religious belief, usages or institutions of His Majesty's subjects. And it shall be in the province and discretion of the said committee (*a*) to make a detailed programme of studies for the proposed prize, (*b*) to name the subject of the essay for any one particular year and (*c*) to decide whether such prize shall be awarded every year or at longer intervals.

(*iii*) By Adhyapak shall be meant scholars of the Smriti Sastra, students of the Smriti in the Government Sanskrit College in Calcutta, and in the *tols* of indigenous Brahmanical Schools which send in candidates for the title examinations held in that College, and students in other similar institutions in India.

(*iv*) Every candidate for the prize shall be required to indicate generally in a preface to his thesis and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others and the portion of the thesis which he claims as original. He shall further be required to state whether his research has been conducted independently, under advice or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

(*v*) Successful candidates shall be required to publish their essays, and if necessary they shall receive help from the University for the purpose.
